

The GLA

Sport Utility Vehicle

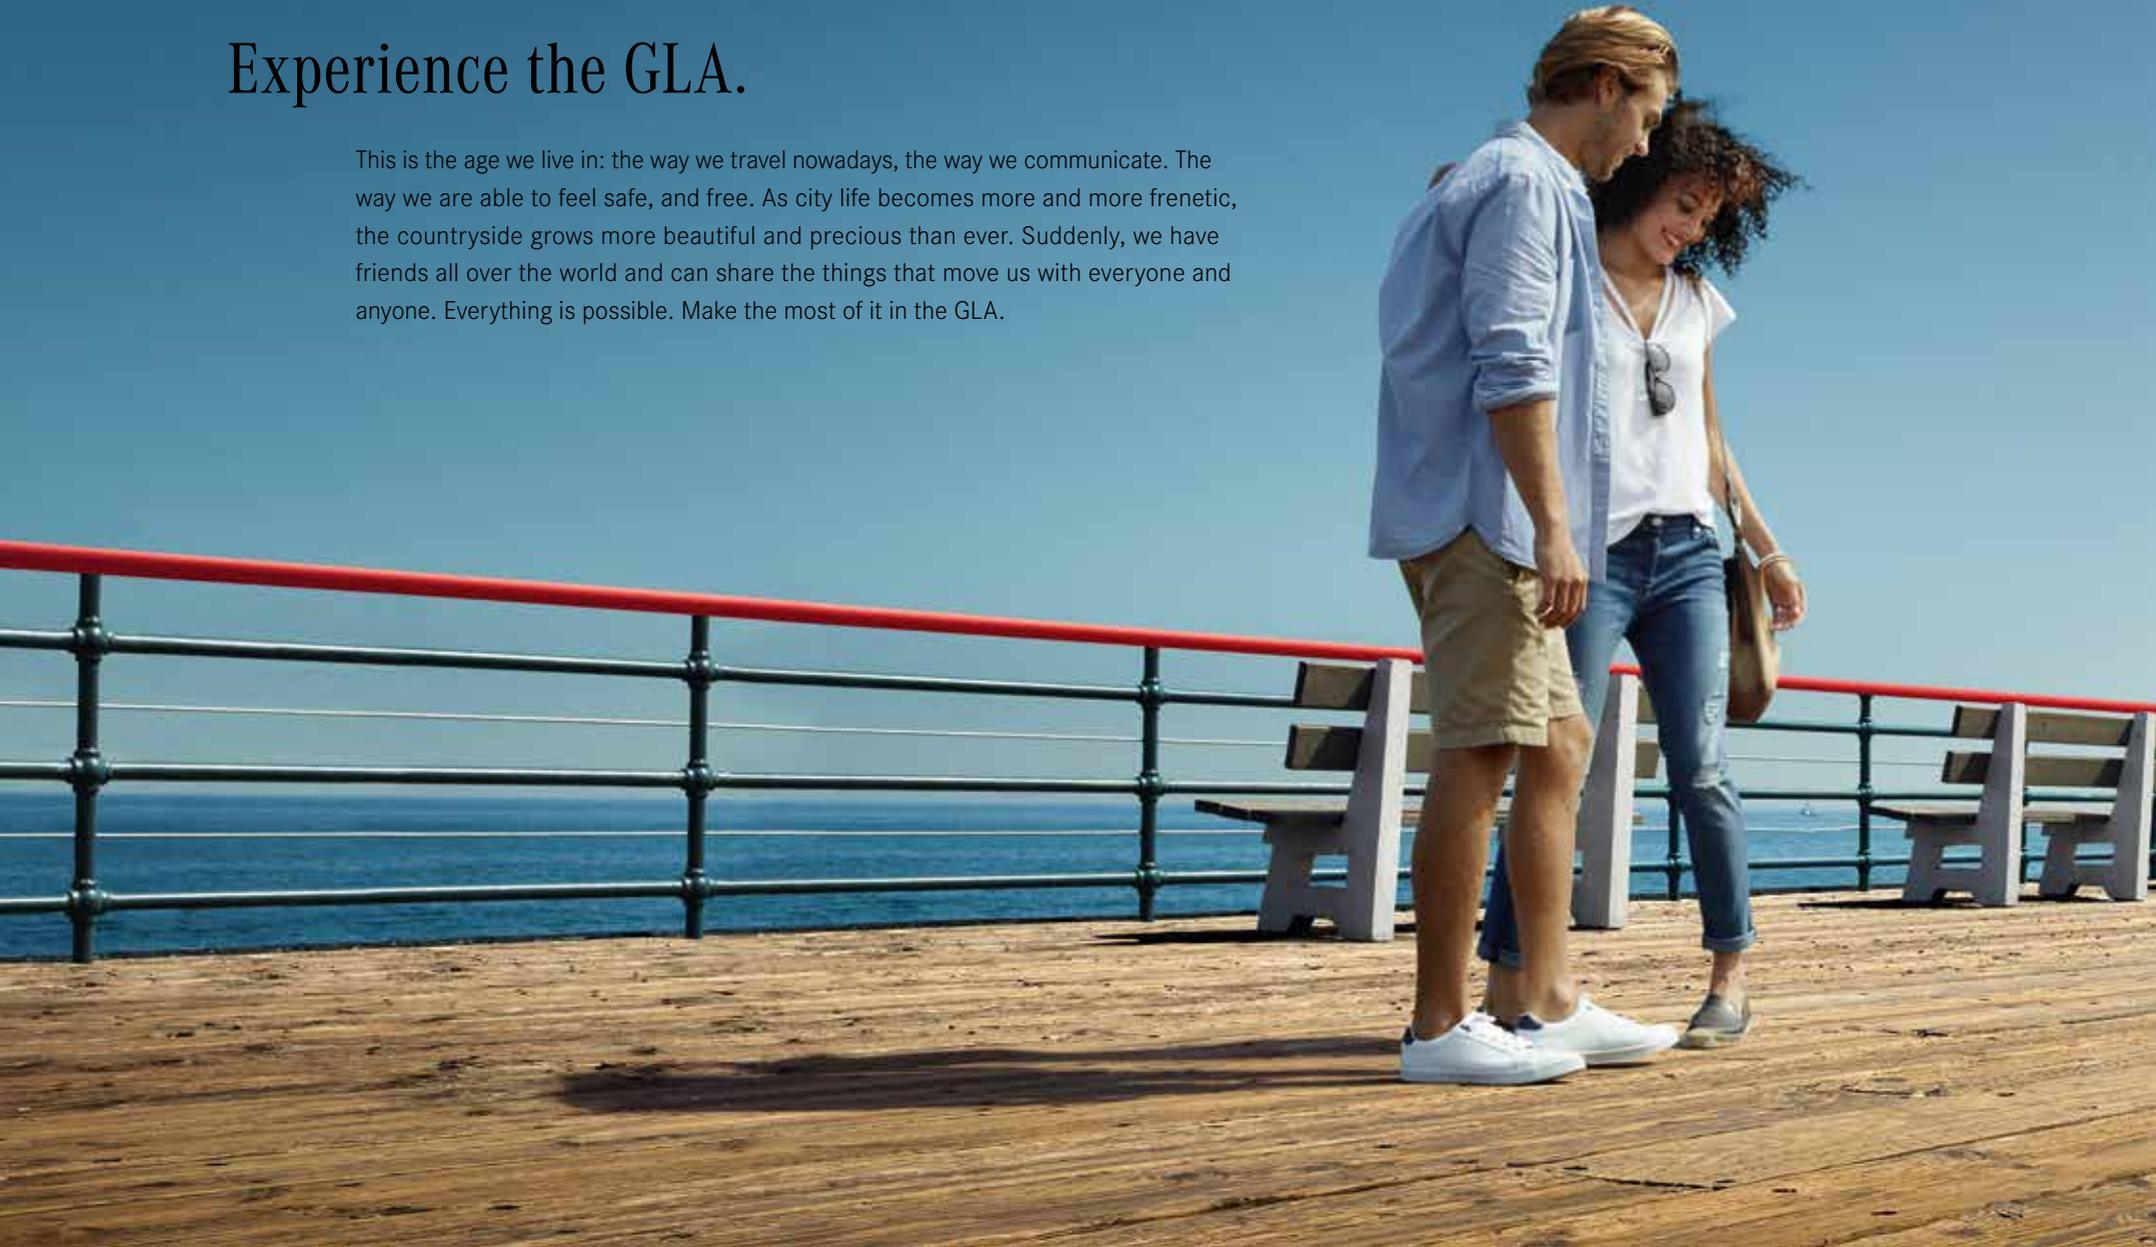

Mercedes-Benz

Experience the GLA.

This is the age we live in: the way we travel nowadays, the way we communicate. The way we are able to feel safe, and free. As city life becomes more and more frenetic, the countryside grows more beautiful and precious than ever. Suddenly, we have friends all over the world and can share the things that move us with everyone and anyone. Everything is possible. Make the most of it in the GLA.

The vehicles shown.

MULTIMEDIA AND THE GLA

Discover the GLA in fascinating HD. With the Mercedes-Benz brochure app for the iPad® and with the Digital Owner's Manual from "Mercedes-Benz Guides" for the iPhone®. Both apps feature a host of films and additional content and are available free of charge from the Apple iTunes Store®.

The illustrations may show accessories and optional extras which are not part of the standard specification.

Set off on your GLA adventure.

Catches the eye.
And holds it.

Follow new roads, off the beaten track, out into unknown terrain. In terms of curiosity and thirst for adventure, the GLA is a genuine off-road vehicle. On the other hand: its dynamic lines convey pure forward momentum, almost like a sports coupé. See and be amazed: the GLA is a crossover in its purest form – it doesn't fit into any particular category, but fits perfectly into your life.

Space for loads.

Whether it's a shopping spree or the voyage of a lifetime – the GLA has everything on board that you need for your next expedition. As just one option, you can open the load compartment at the touch of a button or with a kicking movement, making loading up child's play.

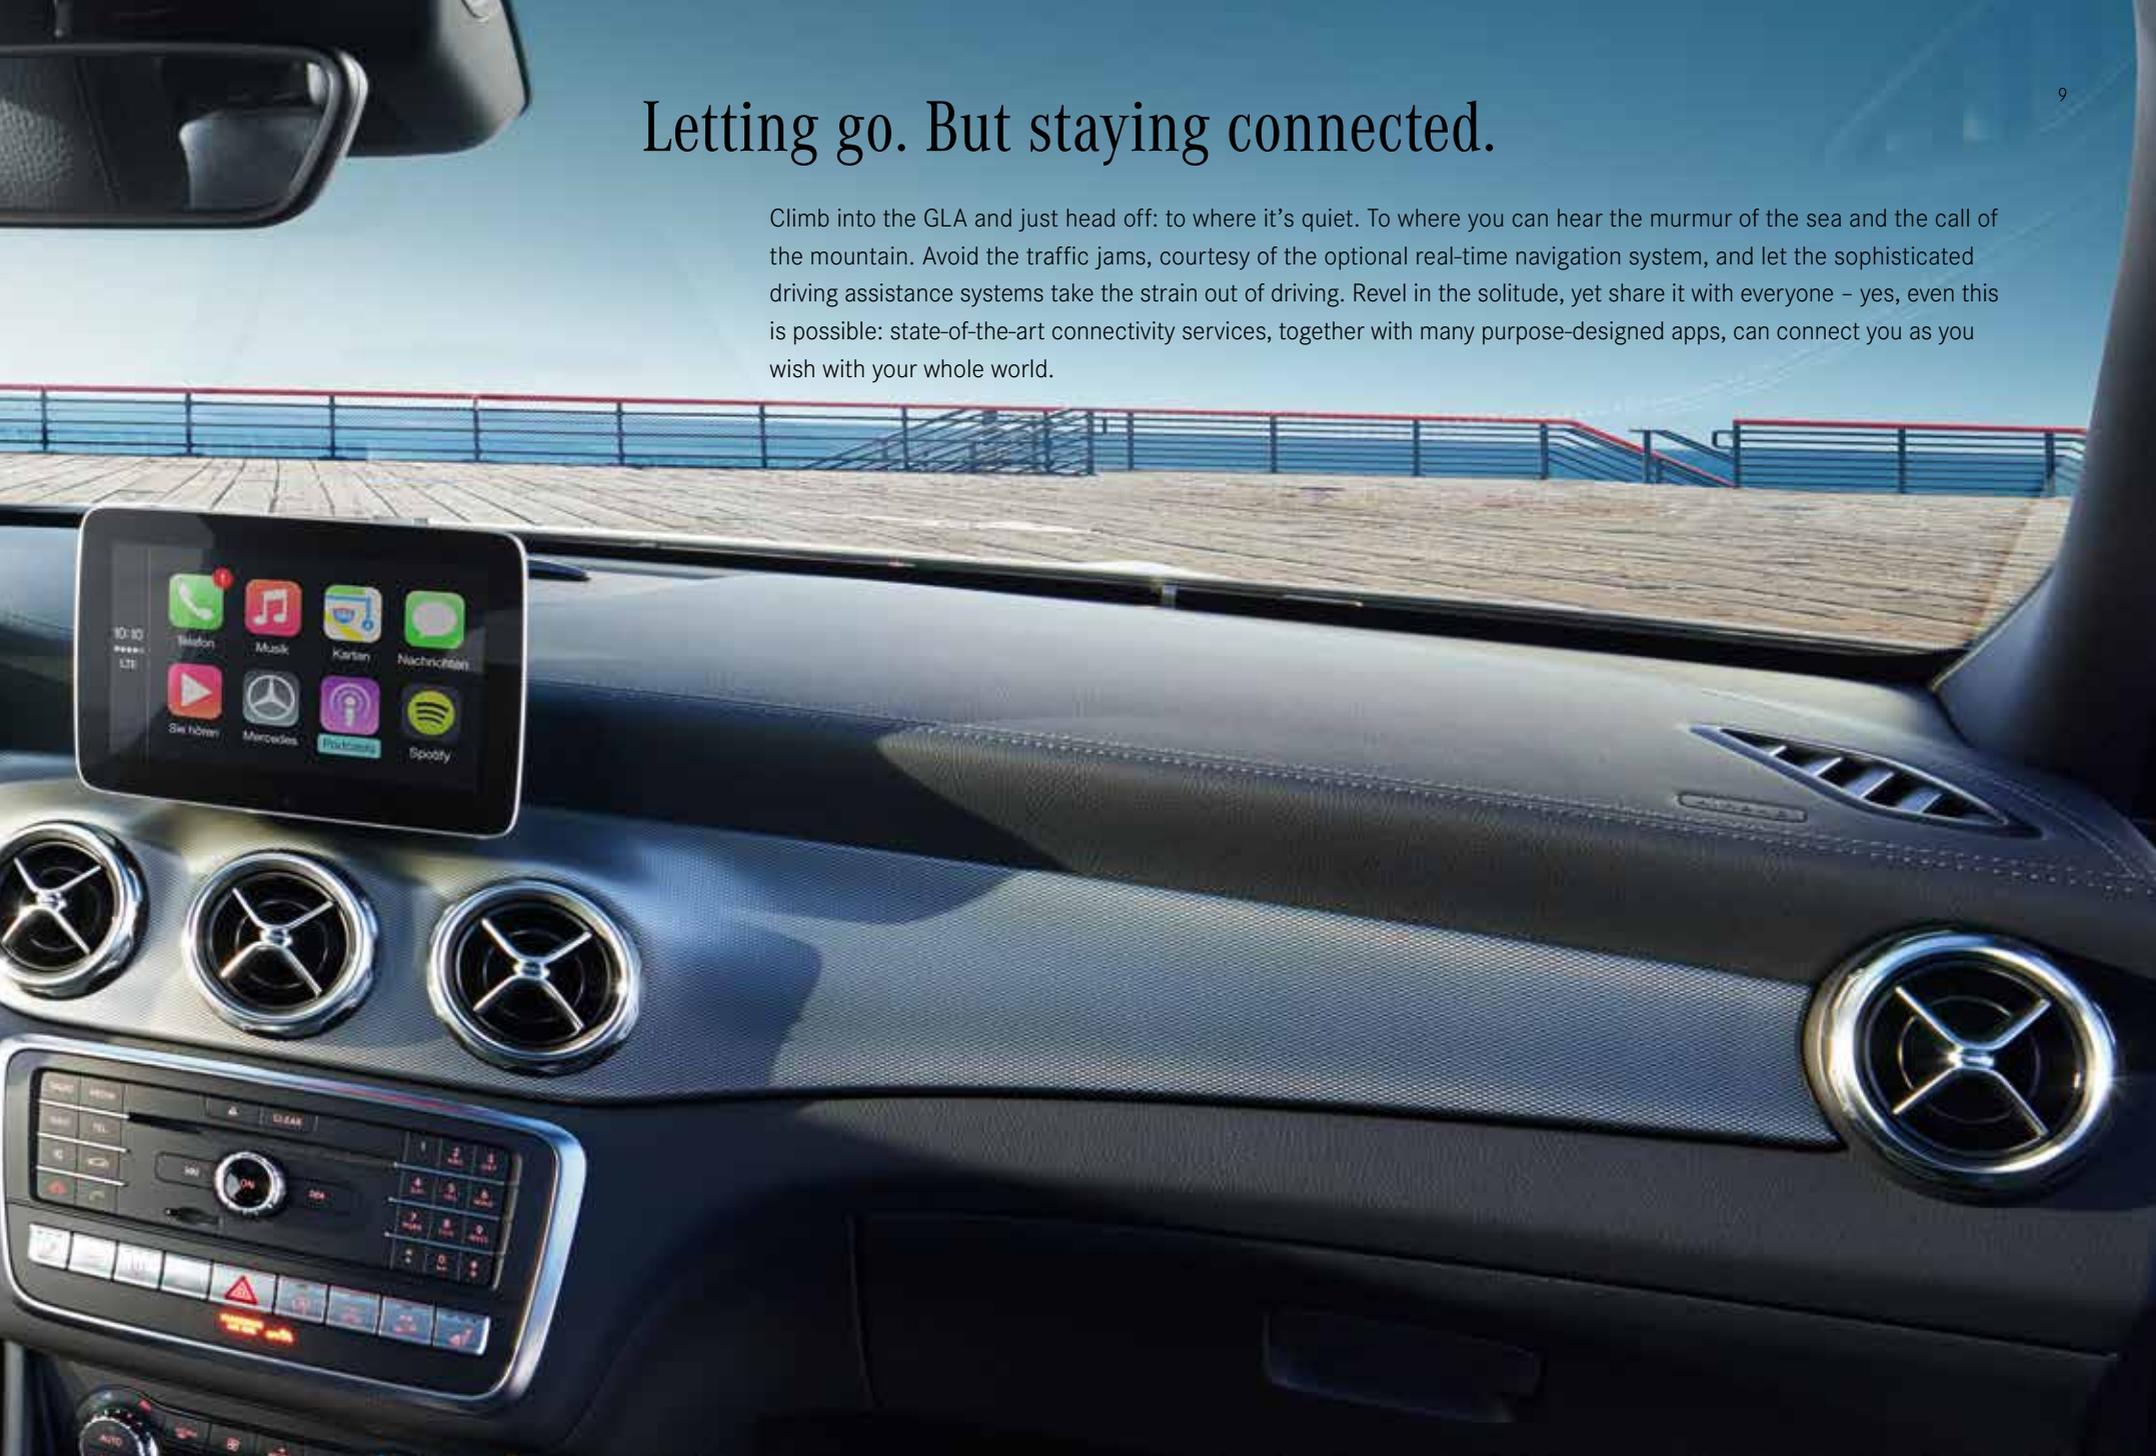

Discover even more.

Letting go. But staying connected.

Climb into the GLA and just head off: to where it's quiet. To where you can hear the murmur of the sea and the call of the mountain. Avoid the traffic jams, courtesy of the optional real-time navigation system, and let the sophisticated driving assistance systems take the strain out of driving. Revel in the solitude, yet share it with everyone – yes, even this is possible: state-of-the-art connectivity services, together with many purpose-designed apps, can connect you as you wish with your whole world.

Eyes to the front. Mood on the up.

A simulated underride guard in bucket-tooth design. Powerdomes on the bonnet. Paintwork in the optional designo mountain grey magno finish. It all sounds pretty exciting. And looks even better. There's a choice of three design and equipment lines – Style, Urban and the AMG Line. Plus the distinctive Night package as a further option. Give free rein to your ideas.

When one adventure ends, the GLA is sure to have the next one in store.

Feel the dynamism. Get the goose bumps.

You love the city, but only really come to life when you're away from it? Then you're like the GLA. As if freshly liberated, it chases round the bends, sends the dust swirling and is always poised for that long journey. There are so many facets to it; but best of all you can add further edge to any of them at the touch of a button. DYNAMIC SELECT means: four drive programs for a markedly sporty or comfortable driving experience. In conjunction with the all-wheel drive system 4MATIC, there's even an extra off-road configuration.

Sets the rhythm.

And turns the road into a dance floor.

Off-piste and away.

Head for new places: a remote village in the mountains, a deserted bay or the heart of the city. The 4MATIC all-wheel drive system is ready for any adventure – and available with many of our engines. It makes driving tangibly safer and more dynamic – and not just on unsurfaced roads.

The image shows the front interior of a Mercedes-Benz GLA. The dashboard is dark with a large, vertical infotainment screen in the center. Below the screen are two circular air vents with a metallic finish. The center console has a gear shifter and handbrake. The seats are upholstered in a combination of dark leather and a lighter-colored fabric. The steering wheel is visible on the left side. The background shows a view of a landscape through the windshield.

Is there anything more precious than freedom?

For all those who like to head off into the distance from time to time: welcome to the GLA with the Style design and equipment line. The distinctive design of the comfort seats in ARTICO man-made leather/Macápá fabric adds a sense of adventure to the interior. A choice of colours, such as ochre yellow/black, allows you to add your own personal flair. Step aboard and don't leave unless you have to.

This far. And a lot further.

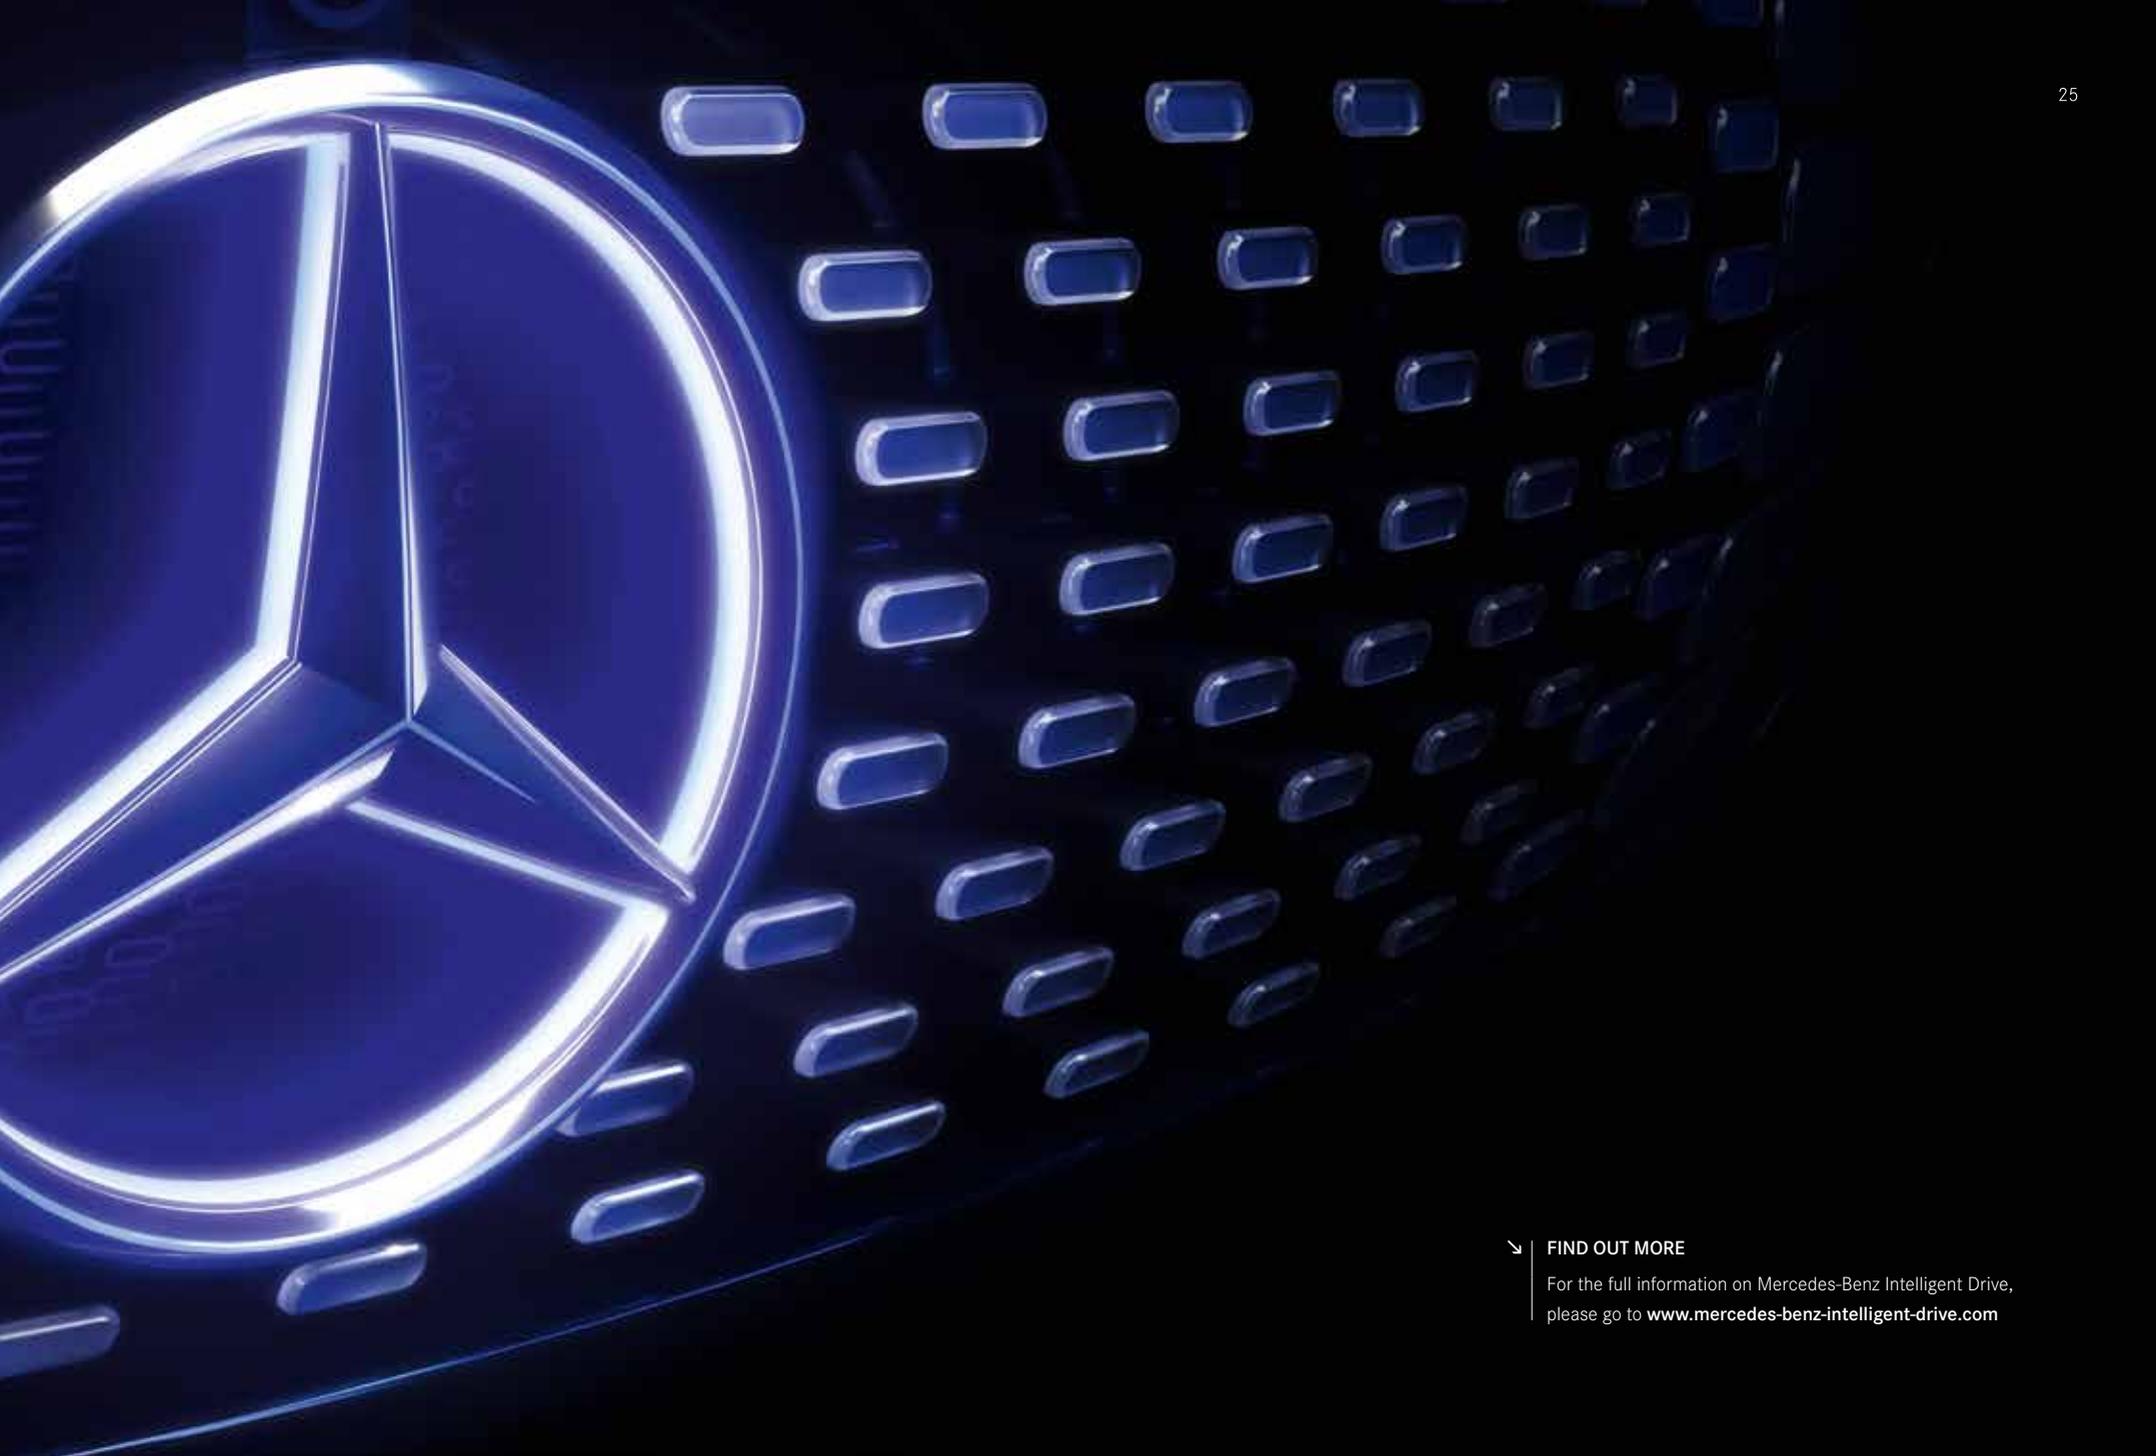

Mercedes-Benz Intelligent Drive – pointing the way to accident-free and autonomous driving.

Mercedes-Benz is the first automotive manufacturer worldwide to have developed an integral safety concept, with the aim of safe driving, responding in an appropriate manner to hazards, avoiding accidents and mitigating the consequences of accidents. For the occupants of a Mercedes and for all other road users, too.

Mercedes-Benz Intelligent Drive forms part of this integral safety concept. It makes your Mercedes one of the most intelligent automobiles in the world – an “intelligent partner”. The Mercedes-Benz Intelligent Drive assistance systems are able to recognise hazards, provide timely warnings and even intervene autonomously when necessary – by performing braking manoeuvres, for example. In this way, accidents can be prevented or the severity of accidents can be significantly reduced. In order to protect passengers as necessary in case of dangers, additional protective features such as PRE-SAFE® are activated as anticipatory measures. These features vary according to the model concerned.

Many Mercedes-Benz vehicles already offer the option of a Driving Assistance package. The key functions of this package include partially automated driving on motorways, on country roads and in built-up areas. The Driving Assistance package also lends support when changing lane on multi-lane roads, for example during overtaking. This relieves the driver’s workload, as in normal driving they no longer need to brake or accelerate. The driver also receives substantial support with steering – even in bends.

Never before have safety, comfort and measures to reduce the strain on the driver been combined so effectively. This intelligent and pioneering interplay of sensors and safety and assistance systems represents a milestone on the road to autonomous and accident-free driving. And a fascinating new experience into the bargain.

Mercedes  me

Our world in your hands.

www.mercedes.me – it's all about you. Discover a world of fascinating services, products and innovations that will simplify and enrich your life. Coming straight to you in digital form. And turning our world into your world.

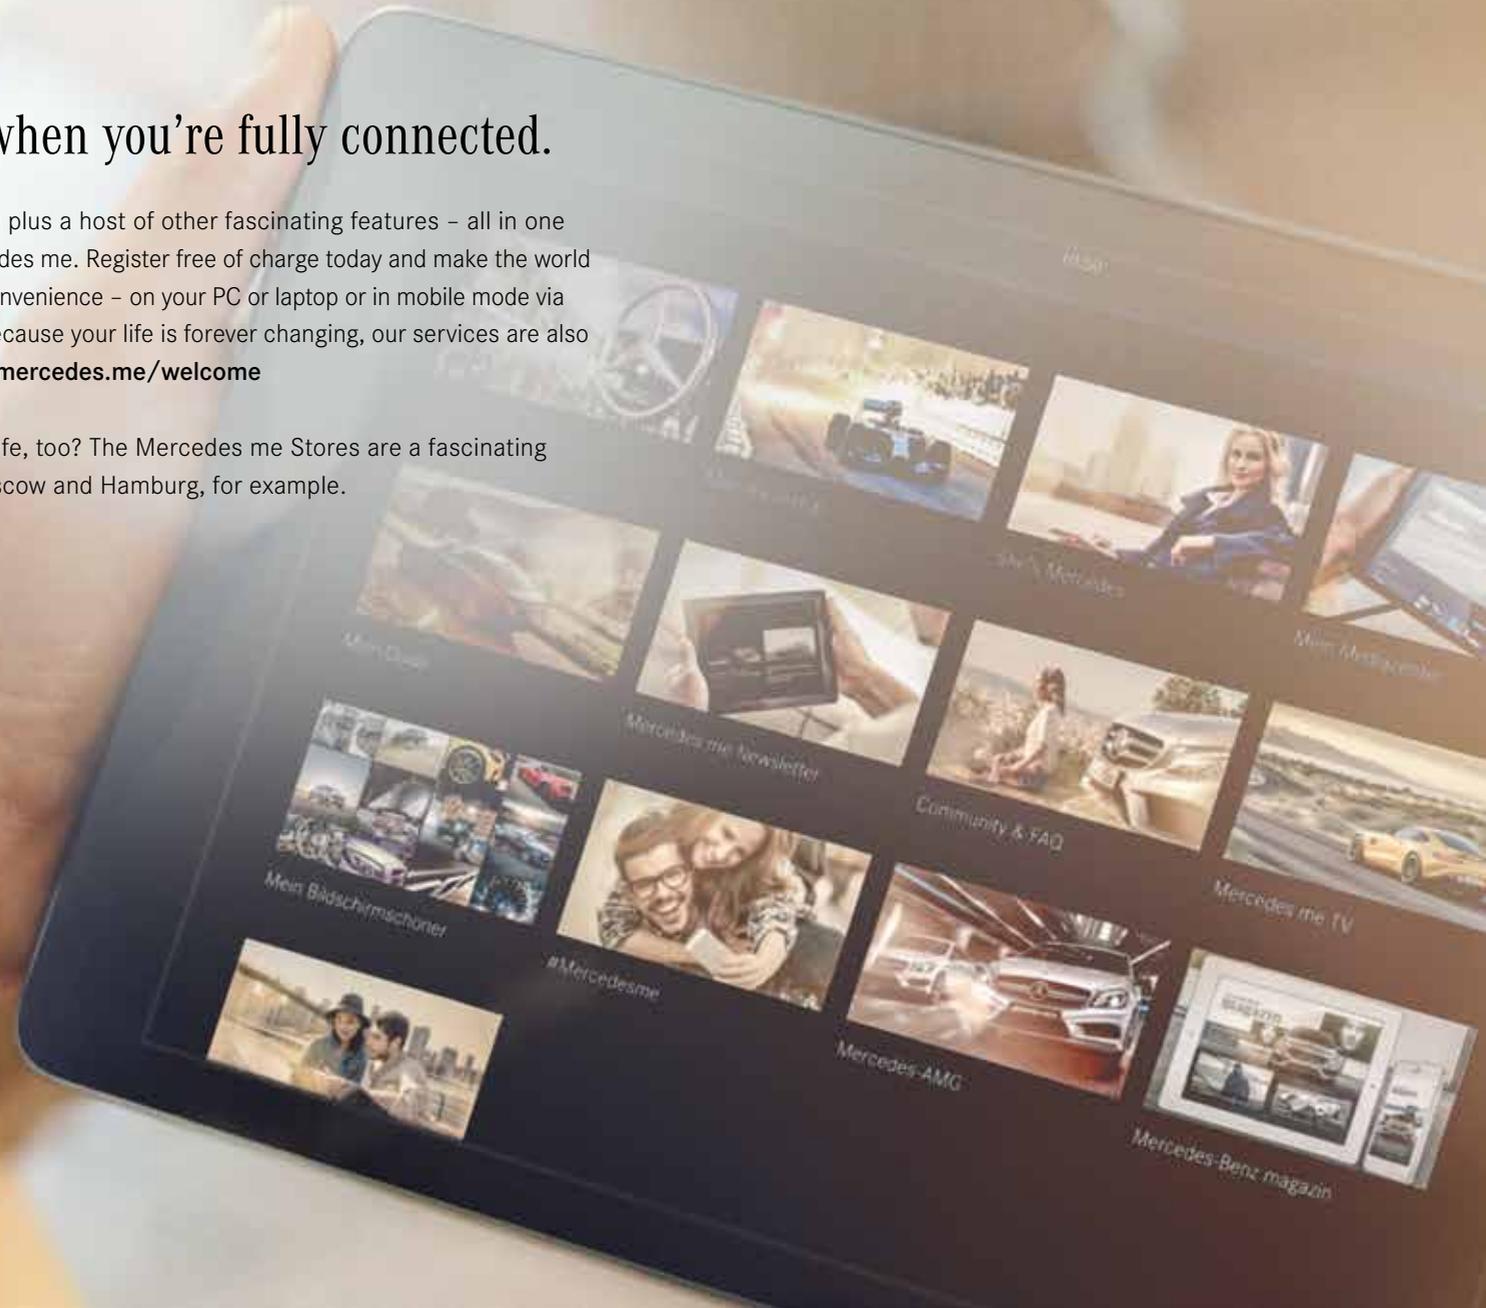

Life can be so fascinating when you're fully connected.

All our connectivity and mobility services plus a host of other fascinating features – all in one place and exclusively for you. That's Mercedes me. Register free of charge today and make the world of Mercedes-Benz your very own at your convenience – on your PC or laptop or in mobile mode via tablet, smartphone or smartwatch. And because your life is forever changing, our services are also continually evolving. Join us now at: www.mercedes.me/welcome

Looking for individual inspiration in real life, too? The Mercedes me Stores are a fascinating phenomenon worldwide – in Beijing, Moscow and Hamburg, for example.

Mercedes me connect connects you with your vehicle – and your vehicle with the whole world. A comprehensive range of convenient connectivity services relating to all areas of your vehicle supports you, ensuring greater safety, closer contact and an even more fascinating driving experience. It's reassuring to stay connected all the time while you're on the move. Mercedes me connect includes Standard Services, which are able to provide you with automatic support in the event of a breakdown or an accident, as well as Remote Online Services – the option enabling vehicle settings to be carried out by smartphone – and lots more besides.

Mercedes me inspire offers special brand experiences and an opportunity to engage in an inspiring dialogue. We aim to share our ideas with you and we would like to know your ideas and wishes. So that we can always offer you the best solutions. A community is available to this end, and you will also find a growing range of offerings and experiences which go beyond the traditional vehicle-related topics – from areas such as events, travel and lifestyle.

Mercedes me move offers access to intelligent mobility solutions: car2go is the pioneer and global market leader in free-floating car sharing, the moovel mobility app pools the offerings from various mobility providers to find the ideal route from A to B. With the mytaxi app you can order a taxi, track its approach live and pay for your journey in a convenient manner. Mercedes-Benz Rent offers vehicles to suit all occasions for short- or long-term rental from an authorised Mercedes-Benz dealer near you. Blacklane enables you to book a chauffeur-driven limousine, FlixBus offers inexpensive, comfortable and environment-friendly trips on long-distance coaches.

Mercedes me assist makes easy work of organising maintenance for your vehicle, providing a convenient online means of locating a Mercedes-Benz dealer in your neighbourhood and arranging a service appointment. The digital service report keeps you up to date on performed service work. The report can be made available to you online just one day after a service. In addition to the current service report, you can also view your vehicle's complete service history and service intervals, and you can print this information out if you so wish.

Mercedes me finance offers you various routes to your vehicle of choice. Mercedes-Benz Bank/Mercedes-Benz Financial Services finds the ideal leasing, financing and insurance solution together with you – tailored to your needs. Our leasing products enable you to drive the latest models at all times while enjoying maximum flexibility, as you pay not for acquisition of the vehicle, but only for its use. You also benefit from attractive monthly instalments. Our financing arrangements enable you to pay for your new Mercedes-Benz in a way that suits your personal budget. You can tailor your monthly instalments to your needs by deciding on an appropriate down-payment and term for your contract. Our individual insurance solutions offer reliable protection for your budget and your vehicle on attractive terms. Your existing financial contracts can be managed conveniently online.¹

¹ Depending on market availability.

Our service: the perfect fit for your Mercedes.

Beyond the car itself, you also acquire something priceless – an exclusive partnership with Mercedes-Benz. For you, this means safety, independence and motoring free of any worries. In other words: the reassuring feeling of driving a Mercedes.

The best for your Mercedes. No-one knows your Mercedes better than our experienced specialists at the Mercedes-Benz workshops. The comprehensive range of services and the high standard of quality ensure that your vehicle is in top condition. We use proven Mercedes-Benz GenuineParts and special tools to this end.

The best for you. Motoring free of any worries right from the word go: with the tailor-made Mercedes-Benz Service Contracts. These offer you the benefits of a reliable basis for long-term planning, permanent control over costs, fixed monthly rates and cost transparency. Plus ideal protection from additional workshop costs.

The best for your mobility. The Mercedes-Benz Mobilo¹ mobility solution provides for motoring free of any worries throughout Europe – covering breakdowns, accidents, minor mishaps and vandalism. The benefits offered by Mobilo include on-the-spot assistance, a replacement vehicle, towing and overnight hotel accommodation, for example. Mobilo comes free of charge for the first two years after initial registration and can subsequently be renewed each time the vehicle is serviced by an authorised service partner, for a period of up to 30 years in all. Whenever you need assistance, you can reach us free of charge throughout Europe on 00800 1 777 7777².

↘ FIND OUT MORE

For the full information on Mercedes-Benz Service Contracts, go to www.mercedes-benz.com – or ask your authorised Mercedes-Benz dealer to draw up an individual offer for you.

¹ Our general terms and conditions apply. The period of validity is extended after each service carried out by an authorised Mercedes-Benz service partner until the due date for the next service – up to a maximum of 30 years after initial registration. ² Roaming charges may apply when calling from abroad.

What would motorsport be without Mercedes-Benz?

The first vehicle to ever win an automobile race was powered by a Daimler engine. The first Mercedes was a racing car. The Silver Arrows – a true legend. Mercedes-Benz has a long tradition of involvement with the world of sport. Motorsport shapes the brand and every vehicle bearing the Mercedes star to this day. Discover the brand's unique history first-hand: at the Mercedes-Benz Museum in Stuttgart.

↘ FIND OUT MORE

Discover just what has been moving the world for over 130 years and take a journey through time as well as through the history of the automobile at the Mercedes-Benz Museum. More than 1500 exhibits await you on 16,500 m² of floorspace, including unique gems such as the oldest surviving Mercedes from 1902 or the legendary gull-wing models. Welcome to a place of innovation:

What would Mercedes-Benz be without motorsport?

3 June 1934 marked the beginning of the Silver Arrows legend in the International Eifel Race at the Nürburgring. Today this legend is more alive than ever: in 2016 the Silver Arrows works team Mercedes-AMG Petronas Motorsport won the Formula 1 constructors' and drivers' titles for the third year in a row, making history by winning 19 of the 21 Grand Prix races. In a spectacular finale in the desert city of Abu Dhabi, Nico Rosberg secured his first world championship title in his Mercedes-Benz F1 W07 Hybrid. The value of these successes extends way beyond the race track: every mile raced advances development in fields such as lightweight materials and hybrid technology for series production.

Perfectly connected:

The **Smartphone Integration** function allows iPhones® and Android smartphones to be integrated into the vehicle using Apple CarPlay™ or Android Auto respectively, and so for example their voice-operated control. The system supports the most important programmes and selected apps, including navigation, telephony/FaceTime and Messaging.

FURTHER CONNECTIVITY OPTIONS

The **Auto Telephony** function allows the connection of a mobile phone using the Bluetooth® protocol SAP (SIM Access Profile) or direct operation by inserting a SIM card into the integral SIM card reader. It is easy to operate using the multifunction steering wheel as well as the controls on the centre console. The multimedia display is the visual output interface.

The **Universal Telephony package** comprises a universal cradle in the armrest that allows the easy and convenient connection of smartphones to the vehicle's hands-free telephone system. In addition, the rechargeable battery can be charged. The smartphone is conveniently operated through the vehicle's systems.

All linked up.

Our innovative and individualised mobility and connectivity services, as well as other service offerings, go by the name of **Mercedes me**. As part of this exciting Mercedes-Benz world of experience, **Mercedes me connect** fully integrates driver, car and personal lifeworld. The Mercedes me connect Standard Services such as the Mercedes-Benz emergency call system or Breakdown Management offer immediate assistance.

The **Remote Online** equipment creates the technical basis for the use of Remote and Tracking Services. Geofencing, Vehicle Tracker, Remote Door Locking and Unlocking, Remote Retrieval of Vehicle Status or the Programming of Auxiliary Heating – these are just a selection of the Remote Online services that can currently be booked separately with Daimler AG on the basis of this technical preparation. These services, which are part of the range of services offered by Mercedes me connect, significantly boost safety and comfort and help to save time.

You can call up the services at any time, even when on the move, from a smartphone, tablet or desktop computer, via the URL <https://connect.mercedes.me>

➤ FIND OUT MORE

Full information at: www.mercedes.me/com

Just follow your own heart. Or COMAND Online.

Navigation, telephone, audio, video, internet – with the optional **COMAND Online** control and display system the driver is able to keep these and many other functions in view and under control. Information is shown in colour on a 20.3 cm (8-inch) high-resolution display. Operation is simple and intuitive. High-speed hard-drive navigation with a topographic map display guides you to your destination safely and smoothly. In combination with a suitable mobile phone, it is possible to call up internet sites when the vehicle is stationary and to use certain Mercedes-Benz Apps that have been approved for this purpose, such as POI search, weather or internet radio, while on the move. Other highlights include the LINGUATRONIC voice control system, a Bluetooth® interface with hands-free operation, a read-aloud function for SMS text messages, and audio streaming of music files.

ALL YOU NEED FOR EASY NAVIGATION

Available as an option, the **Garmin® MAP PILOT** upgrades the Audio 20 CD to a full-blown Garmin® navigation system offering user-friendly navigation, necessary map data and accurate route guidance. It is all done by simply inserting an SD card with navigation software and map data sets.

Live Traffic Information¹ (part of the optional COMAND Online system or Garmin® MAP PILOT) facilitates the reception of the latest and precise traffic information for optimised dynamic route guidance and precisely calculated arrival times. Data transfer takes place using a communication module via a fast mobile internet connection.

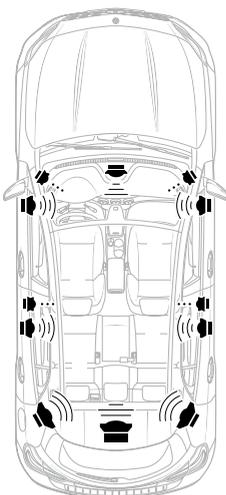

The **8-inch multimedia system display**, with a screen diagonal of 20.3 cm, looks rather like a state-of-the-art tablet computer (available as an option for Audio 20).

¹ Three months free of charge; full three-year term free of charge available only in conjunction with the setting-up of a Mercedes me user account and following acceptance of General Terms and Conditions and Special Terms and Conditions.

The GLA. Sound to take your breath away.

With twelve loudspeakers, including a bass speaker, and a 9-channel DSP amplifier, the optional 450 Watt **Harman Kardon® Logic 7® surround sound system** works in conjunction with the various audio systems to deliver a perfect stereo audio experience – and in conjunction with COMAND Online also in DTS and Dolby Digital 5.1 format. The Logic 7® surround sound technology with dynamic volume control adjusts the volume constantly to the vehicle’s speed – for a consistent audio experience in every seat.

-  Centre-fill speaker
-  Tweeter
-  Low-/mid-range speaker
-  Mid-range speaker
-  Bass speaker

The Logic 7® multi-channel technology provides for an authentic surround-sound music experience. Designed to deliver a 360-degree audio experience in every seat.

DYNAMIC SELECT. Emotions at the touch of a button.

Comfortable, sporty, efficient or entirely individual vehicle settings can be conveniently called up with the optional **DYNAMIC SELECT** switch. The selection of a specific drive program changes parameters such as the characteristics of the engine, transmission, suspension and steering. As an alternative to the standard “Comfort” setting, the drive program “Sport” offers such features as a sportier steering feel and a stiffer damper set-up (in conjunction with the suspension with adaptive damping adjustment). The “Eco” drive program is designed to keep fuel consumption as low as possible.

Vehicles with 4MATIC all-wheel drive additionally feature the “Offroad” drive program – this adjusts the power delivery of the engine and the shift characteristics of the automatic transmission for driving in moderate off-road terrain or on dirt tracks. At the same time, a special ABS programmed for tricky terrain, ESP® and 4ETS are activated. The “Individual” drive program, finally, enables the individual parameters to be adjusted to suit personal preference – from the steering and powertrain to the suspension.

FURTHER SUSPENSION OPTIONS

With the **off-road comfort suspension** the body is raised by 30 millimetres. This results in improved off-road capability thanks to greater ground clearance, a higher seating position and a more striking off-road look.

The **suspension with adaptive damping adjustment** is an option that allows the driver to modify the damping characteristics of the car using the DYNAMIC SELECT switch. They can choose between the “Comfort” mode for more comfortable damping characteristics and the “Sport” mode for a sporty-firm damper set-up. This makes it possible to adopt a considerably more agile driving style.

The **lowered suspension** combines agility and ride comfort by adapting the shock absorbers automatically to the driving situation and road surface. Springs and dampers are sportily tuned, while the ride height of the vehicle has been lowered by 15 millimetres.

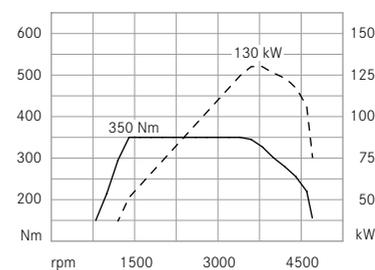

4MATIC. On the gripping subject of traction.

“I drive so rarely off-road, I don’t need all-wheel drive.” Such thinking is somewhat wide of the mark: the **all-wheel drive system 4MATIC** – optional for the diesel variants GLA 200 d and GLA 220 d and for the petrol models GLA 220 and GLA 250 – is not only a boon in off-road use. It optimises driving safety in snow or wet conditions. It supports dynamic cornering by varying the distribution of drive force between front and rear axle. Drive torque distribution ranges from full front-wheel drive to a 50 : 50 split, depending on the given driving situation. And it improves acceleration on loose ground by means of braking intervention to prevent individual wheels from spinning. The scope of the all-wheel drive system 4MATIC also includes a special off-road drive program: the altered drive characteristics adjust the power delivery of the engine and the shift characteristics of the automatic transmission for optimum traction, particularly on a loose surface or on dirt tracks.

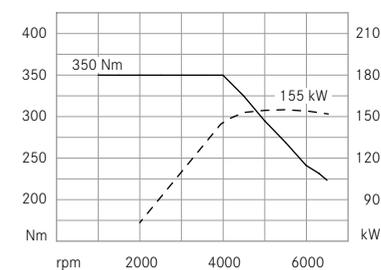

High torque alone is not enough: the maximum 350 Nm of torque in the GLA 220 d and in the GLA 250 become available at very low engine speeds, making it possible to keep the revs down and thus drive efficiently.

GLA 220 d

Engine speed in rpm, torque in Nm, output in kW

GLA 250

Lighting for high performers.

In addition to their distinctive visual appeal, the optional **LED High Performance headlamps** offer a broad light distribution, a daylight-simulating colour temperature and a low energy consumption level. Also in daytime, the clearly defined contours and high-quality detailing ensure an unmistakable front view. Thanks to the LED technology deployed in the low-beam headlamps and main-beam headlamps, the road surface is better illuminated than with conventional halogen headlamps. When unlocking the vehicle, the “Coming Home” function welcomes the driver with an exceptional light display. The fibre optics for the daytime running lamps light up initially in blue, then the colour changes smoothly to bright white. The **crystal-effect tail lights**, likewise in LED technology, give the car a striking appearance and improve visibility.

MORE LIGHT FOR ADDED SAFETY

The optional **Light and Sight package** gives the interior a higher-quality feel and the car optimum overall visibility. It includes function illumination, which enhances comfort and safety, and ambient lighting, which lends the interior even more atmosphere.

Depending on the ambient light conditions, **Headlamp Assist** automatically switches the dipped-beam headlamps on or off. In rapidly changing light conditions in particular, the system can enhance driving safety and reduce the pressure on the driver, e.g. when driving into a tunnel or a multi-storey car park.

Makes things easier all round.

The optional **360° camera** uses four networked short-range cameras to provide a realistic all-round view during parking and manoeuvring. A bird's-eye view of the vehicle and its surroundings can be shown on the multimedia system display. One camera is located in a central position in the radiator grille, one in each exterior mirror and one centred in the tailgate. The virtual viewpoint covers an area extending about three metres all round the vehicle. Various views additionally show guide lines to make parking easier. The 360° camera can be activated by engaging reverse gear, by pressing a button or via the menu of the multimedia system.

MAKE THINGS EASY FOR YOURSELF

Reverse parking and manoeuvring is considerably easier and safer with the optional **reversing camera**. It is activated automatically when reverse gear is engaged and shows the driver the area behind the vehicle on the multimedia system display with dynamic guide lines.

The optional **Traffic Sign Assist** system is able to detect speed limits, no-overtaking restrictions and wrong-way driving, and to display a corresponding alert in the instrument cluster and in the map view of the COMAND display.

The standard equipment.

You can configure the GLA according to your own individual wishes, right down to the finest details. Countless equipment options are available to this end. Or you can simply enjoy the very comprehensive standard equipment and appointments package.

↘ FIND OUT MORE

As attractive as this overview may be, it only provides an initial impression. For the complete range of standard equipment please refer to the price list, which is also available for viewing online.

HIGHLIGHTS – EXTERIOR

Multi-spoke light-alloy wheels with 215/60 R 17 tyres

Comfort suspension

2-louvre radiator grille, painted in silver

Bumpers front and rear with simulated underride guard

Beltline trim strip in matt black

HIGHLIGHTS – INTERIOR

Comfort seats with Coari fabric upholstery and topstitching

3-spoke multifunction steering wheel with twelve control buttons

Carbon fibre-look trim

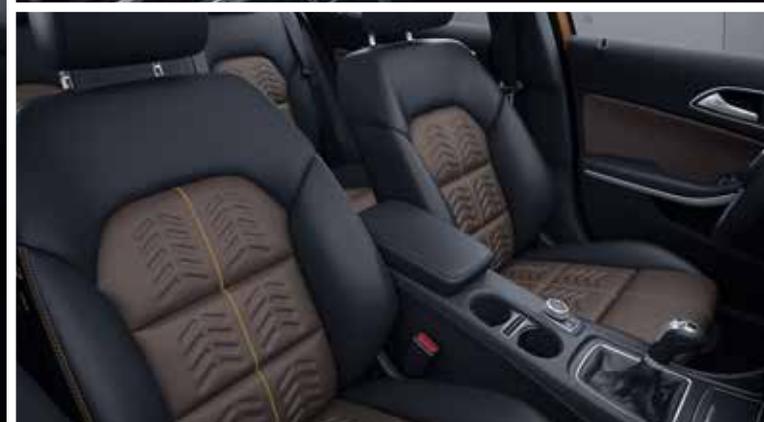

Instrument cluster with colour multifunction display

Air conditioning

Audio 20 USB multimedia system

KEYLESS-GO starting function with convenience central locking system

Cruise control with variable speed limiter

Class and distinction: the Style line.

The Style design and equipment line creates high-quality highlights both inside and out. The use of chrome on the outside and leather in the interior are just two examples of this. A special feature of the design: the Macápá upholstery design with its bold topstitching.

¹ Black matrix-look trim (H54) as part of the Style equipment line; high-gloss brown walnut wood trim (H14), light brown silk matt poplar wood trim (H19), AMG carbon fibre trim (H73) or black matt ash wood trim (H06) available as an optional extra.

HIGHLIGHTS – EXTERIOR

5-twin-spoke light-alloy wheels, painted vanadium silver, with 215/60 R 17 tyres

Radiator trim with two perforated louvres in matt iridium silver and additional inserts in high-gloss chrome

Beltline trim strip in chrome

Load sill guard in chrome

Aluminium roof rails in high-gloss black

HIGHLIGHTS – INTERIOR

Comfort seats with upholstery in ARTICO man-made leather/Macápá fabric with special off-road touch

Seat Comfort package, including seat cushion depth adjustment

Black matrix-look trim (H54)¹

3-spoke multifunction steering wheel in leather, with twelve function buttons

Instrument cluster with two tubes – dials with concentric rings and needles in metallic silver with red needle pointer

Dynamic and modern: the Urban line.

The Urban design and equipment line enhances the sporty appearance significantly. Highlights include the integrated tailpipe trim and dynamic 5-spoke light-alloy wheels as well as sports seats and a leather multifunction steering wheel with additional perforations in the grip area.

¹ Sail-pattern trim (H81) as part of the Urban equipment line; aluminium trim with trapezium grain (739), aluminium trim with light longitudinal grain (H79) or AMG carbon fibre trim (H73) available as an optional extra.

HIGHLIGHTS – EXTERIOR

5-spoke light-alloy wheels, painted vanadium silver with a high-sheen finish, with 235/50 R 18 tyres

Radiator trim with two perforated louvres in matt iridium silver with inserts in high-gloss chrome

Twin-pipe exhaust system, with chrome-plated tailpipe trim integrated into bumper

Beltline trim strip and load sill guard in chrome

Roof rails in anodised aluminium

HIGHLIGHTS – INTERIOR

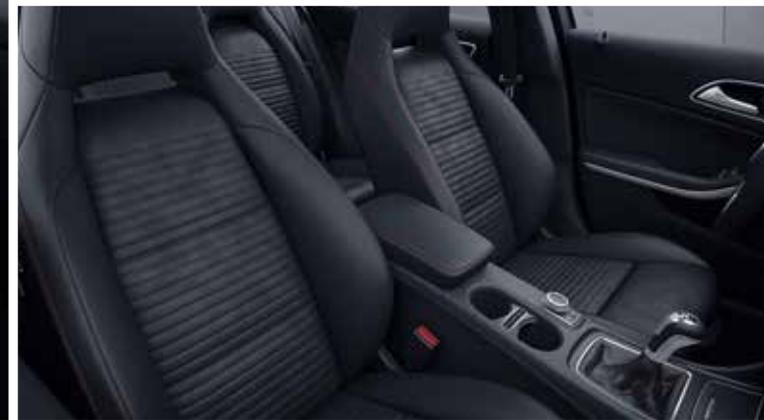

Sports seats with upholstery in ARTICO man-made leather/Maringá fabric with contrasting topstitching

Seat Comfort package, including seat cushion depth adjustment

Sail-pattern trim (H81)¹

3-spoke leather multifunction steering wheel with perforations in the grip area, twelve control buttons and contrasting topstitching

Air outlets with surround and cruciform nozzle in silver chrome

Sporty and exclusive: the AMG Line.

The AMG Line combines perfectly matched elements to further enhance the vehicle's sportiness and exclusivity – from the dynamic AMG bodystyling and AMG light-alloy wheels through to a suspension that has been lowered by 15 mm and a multifunction sports steering wheel.

HIGHLIGHTS – EXTERIOR

AMG bodystyling with inserts in front splitter and side sill panels and rear apron trim in high-gloss chrome

AMG 5-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 235/50 R 18 tyres

Radiator trim with two perforated louvres in matt iridium silver with inserts in high-gloss chrome

Suspension lowered by 15 mm and Sports Direct-Steer system¹

Perforated front brake discs, front brake callipers with "Mercedes-Benz" lettering

Twin-pipe exhaust system with integrated tailpipe trim, chromed

HIGHLIGHTS – INTERIOR

Sports seats upholstered in ARTICO man-made leather/DINAMICA microfibre with red contrasting topstitching

Seat Comfort package, including seat cushion depth adjustment

Light aluminium trim with longitudinal grain (H79)

3-spoke multifunction sports steering wheel in leather, flattened lower section, with perforations in grip area and contrasting topstitching in red

Two-tube instrument cluster, silver-coloured backplate and red needles

Brushed stainless-steel sports pedals with rubber studs

¹ Comfort suspension without lowering and Sports Direct-Steer system available as a no-cost option.

The Exclusive package and the Comfort Exclusive package.

The **Exclusive package** gives the interior an even classier look. With this, the dashboard and beltlines are finished in ARTICO man-made leather with contrasting topstitching. The heated sports seats are upholstered in leather.

It is the distinctive comfort seats of the **Comfort Exclusive package** that make it stand out – the upholstery is exclusively finished in black buffalo hide-look leather. The dashboard and beltlines are finished in ARTICO man-made leather.

OVERVIEW OF FEATURES

Sports seats with leather upholstery, 4-way lumbar support and contrasting topstitching as well as perforated pads (in conjunction with the Exclusive package)

Distinctive comfort seats in black buffalo leather look, with 4-way lumbar support (in conjunction with Comfort Exclusive package)

Seat Comfort package, including seat cushion depth adjustment

Heated seats for driver and front passenger

Aluminium trim with trapezium grain (in conjunction with Comfort Exclusive package)

3-spoke multifunction steering wheel in leather with perforations in the grip area

Shift lever in leather with silver chrome highlights (in conjunction with 6-speed manual transmission)

Dashboard in ARTICO man-made leather with contrasting topstitching

Air outlets with surround and cruciform nozzle in silver chrome

Door armrests with silver chrome trim and contrasting topstitching

Sports pedals in brushed stainless steel with rubber studs (as part of the Exclusive package in conjunction with AMG Line)

The AMG Exclusive package.

Building on the AMG Line, this combination of high-quality interior appointments offers maximum exclusivity, individuality and sportiness. The highlight in terms of both look and feel is the upholstery in black RED CUT leather with red contrasting topstitching.

OVERVIEW OF FEATURES

Sports seats with black RED CUT leather upholstery and red contrasting topstitching

Seat Comfort package, including seat cushion depth adjustment

Heated seats for driver and front passenger

Light aluminium trim with longitudinal grain (H79)

3-spoke multifunction sports steering wheel in leather, with flattened bottom section, perforated in the grip area and with red contrasting topstitching

Shift lever in leather with silver chrome highlights (in conjunction with 6-speed manual transmission)

Dashboard in ARTICO man-made leather with red contrasting topstitching

Two-tube instrument cluster, silver-coloured backplate and red needles

Door armrests with silver chrome trim and contrasting topstitching

Cord floor mats with black edging, red contrasting topstitching and "AMG" lettering

Convenience central locking system with summer opening/closing function for side windows and panoramic sliding sunroof (optional)

The Night package.

The Night package offers striking exterior features to lend the vehicle an expressive sporty character.

OVERVIEW OF FEATURES

Radiator grille with two louvres in high-gloss black and chrome inserts

Exterior mirror housings, painted in black

Heat-insulating dark-tinted glass starting from the B-pillar

Aluminium roof rails in high-gloss black

Beltline trim strip in high-gloss black

Additional features in conjunction with Style line and Urban line:

Front and rear bumpers with simulated underride guard in high-gloss black and 5-twin-spoke light-alloy wheels painted in black with a high-sheen finish, fitted with 235/50 R 18 tyres

Additional features in conjunction with AMG Line:

AMG bodystyling with inserts in front splitter and side sill panels, rear apron trim in high-gloss black and AMG 5-spoke light-alloy wheels painted in matt black and fitted with 235/45 R 19 tyres

Highlights – optional extras.

Light and airy does it: the wide expanses of glass of the **panoramic sliding sunroof** ensure a light and friendly ambience in the interior. It consists of a fixed panoramic glass rear section and an electrically operated sliding glass front section for ventilation of the interior as required.

FURTHER OPTIONAL EXTRAS

The **aluminium roof rails** provide the attachment basis for various roof racks. In addition to their practical benefits the roof rails also serve as a design feature. Also available in high-gloss black (see illustration).

The **electrically adjustable driver's seat including Memory function** allows up to three individual settings for the seat and exterior mirror to be stored. The Memory function is also available for the front passenger seat.

THERMOTRONIC automatic climate control with two climate zones provides individual climate comfort for the driver and for the front passenger. Temperature, airflow and air distribution are controlled automatically.

For convenient loading and unloading, the **EASY-PACK tailgate** opens and closes electromechanically at the simple push of a button.

The **Load Compartment package** delivers more space, order and safety. The rear seat backrests can be positioned forwards at a 15-degree steeper angle (cargo position), to increase the load capacity. A lockable luggage compartment floor with chrome-plated handle reinforces the high-quality impression.

The **ambient lighting** enhances the atmosphere and quality feel of the interior.

Before a journey, the vehicle interior can be heated or ventilated by the **stationary heater** – either by timer or with the remote control. In winter this eliminates the time-consuming task of scraping ice from the windows.

The perfect genuine accessories for every adventure.

The GLA fulfils just about every wish. And for those extra special needs there are genuine accessories. The diverse range of items all correspond to a common standard: every accessory product has been developed specifically for the GLA in accordance with Mercedes-Benz's high quality standards.

Discover the complete range online at
www.mercedes-benz-accessories.com

Keep the **star** shining. Fibre optics and LED technology are used to illuminate the central star on the radiator grille of your Mercedes when you unlock the car with the remote or when you open a door or the tailgate (functionality only available when the engine is switched off and not in conjunction with the Distance Pilot DISTRONIC).

5-twin-spoke light-alloy wheels, matt black with a red rim flange, for 235/45 R 19 tyres.

The **basic carrier bars** in a special Mercedes-Benz design are designed specifically to fit the GLA. They provide the basis for many Mercedes-Benz carrying solutions and are easily mounted as well as lockable.

The convenient, lockable **rear bicycle rack** for the safe transportation of two or three bicycles, easy to mount on the trailer coupling. Maximum load of up to 30 kg per bicycle rail. Therefore suitable for most e-bikes. A rolling mechanism ensures that the tailgate can still be opened. The rack folds easily for convenient storage in the boot or at home.

Wheels.

Wheels are indispensable on technical grounds, of course. But on an emotional level, too, perfect wheels are an absolutely crucial ingredient of many people's dream car. With this in mind, we have put together a particularly large and diverse selection for you.

STANDARD EQUIPMENT AND OPTIONAL EXTRAS

R00 Steel wheels with 10-hole trims, with 215/60 R 17 tyres

08R Multi-spoke light-alloy wheels, painted in vanadium silver, with 215/60 R 17 tyres

R48 5-twin-spoke light-alloy wheels, painted vanadium silver, with 215/60 R 17 tyres

R31 5-twin-spoke light-alloy wheels, painted vanadium silver, with 235/50 R 18 tyres

01R 5-twin-spoke light-alloy wheels, painted black with a high-sheen finish, with 235/50 R 18 tyres

82R 5-spoke light-alloy wheels, painted vanadium silver with a high-sheen finish, with 235/50 R 18 tyres

48R 5-spoke light-alloy wheels, painted matt black with a high-sheen finish, with 235/45 R 19 tyres

GENUINE ACCESSORIES

77R 5-twin-spoke light-alloy wheels¹, painted vanadium silver, with 235/45 R 19 tyres

65R 5-twin-spoke light-alloy wheels¹, painted black with a high-sheen finish, with 235/45 R 19 tyres

Code: A156 401 2700 7X23 | 5-twin-spoke light-alloy wheels², painted black with a high-sheen finish, with 235/50 R 18 tyres

AMG

633 AMG 5-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 235/50 R 18 tyres

635 AMG 5-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 235/45 R 19 tyres

655 AMG 5-spoke light-alloy wheels, painted black with a high-sheen finish, with 235/45 R 19 tyres

RVI AMG multi-spoke light-alloy wheels, painted black with a high-sheen rim flange, with 235/45 R 19 tyres

RVJ AMG multi-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 235/45 R 19 tyres

754 AMG 5-twin-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 235/45 R 19 tyres

758 AMG 10-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 235/40 R 20 tyres

778 AMG 10-spoke light-alloy wheel, painted matt black and rim flange with a high-sheen finish, with 235/40 R 20 tyres

RVU AMG multi-spoke light-alloy wheels, painted titanium grey with a high-sheen rim flange, with 235/40 R 20 tyres

RVV AMG multi-spoke light-alloy wheels, painted matt black with a high-sheen rim flange, with 235/40 R 20 tyres

¹ Ex-factory accessory wheel.

² Genuine accessory wheels are delivered without tyres.

Life without Performance? Unthinkable. The Mercedes-AMG GLA 45 4MATIC.

Mercedes-AMG is not just a manufacturer of performance vehicles, AMG is a promise. The promise always to go one step further; to expect much and to give absolutely everything. This is how we create exceptional automobiles for exceptional people.

However big the obstacles that people place in your way, you have the vehicle to get you over them. The Mercedes-AMG GLA 45 4MATIC. An SUV in the compact segment. Built to break conventions or to create something new. Yet still ideal for everyday use.

Welcome to the world of AMG.

✓ The word getaway suddenly takes on new meaning.

The tail end of the Mercedes-AMG GLA 45 shows the car's feisty character. The new spoiler lip and the AMG diffuser-look rear apron reduce the lift on the rear axle and hold the sportster solidly on the road. Hallmark front-end features: the AMG radiator grille with its twin louvre in silver chrome and the AMG front apron in an A-wing design. Large cooling air intakes and distinctive gills on all air intakes serve to underline the vehicle's self-assured and dynamic appeal. With looks like these, even a compact SUV can earn respect in any terrain.

Pulls away on any surface.

The Mercedes-AMG GLA 45 is both an SUV and a thoroughbred sports car. Get exciting evidence of this during a breathtaking ride through the desert. Feel quite at home on pretty much any surface with the performance-oriented all-wheel drive system AMG Performance 4MATIC and the optional AMG DYNAMIC PLUS package, including AMG front-axle limited-slip differential. The AMG RIDE CONTROL sports suspension, available as an option, with adaptive damping adjustment and additional RACE transmission mode, delivers one of the most intensive driving experiences possible. Can such dynamic performance still be improved upon? Yes, on a closed-off race track, where the 3-stage Electronic Stability Program (ESP®) will help you steer your racer safely round the asphalt.

Fly the ideal line.

A vehicle that any pilot would love to captain: the Mercedes-AMG GLA 45. The touch of a button is all it takes to start the world's most powerful series-production four-cylinder engine. With an output of 280 kW (381 hp) this handcrafted engine, built according to the principle of "One Man – One Engine", develops torque of 475 Nm. And can accelerate the Mercedes-AMG GLA 45 out of the dust from 0 to 100 km/h in just 4.4 seconds. A brief roar, then it's full thrust ahead.

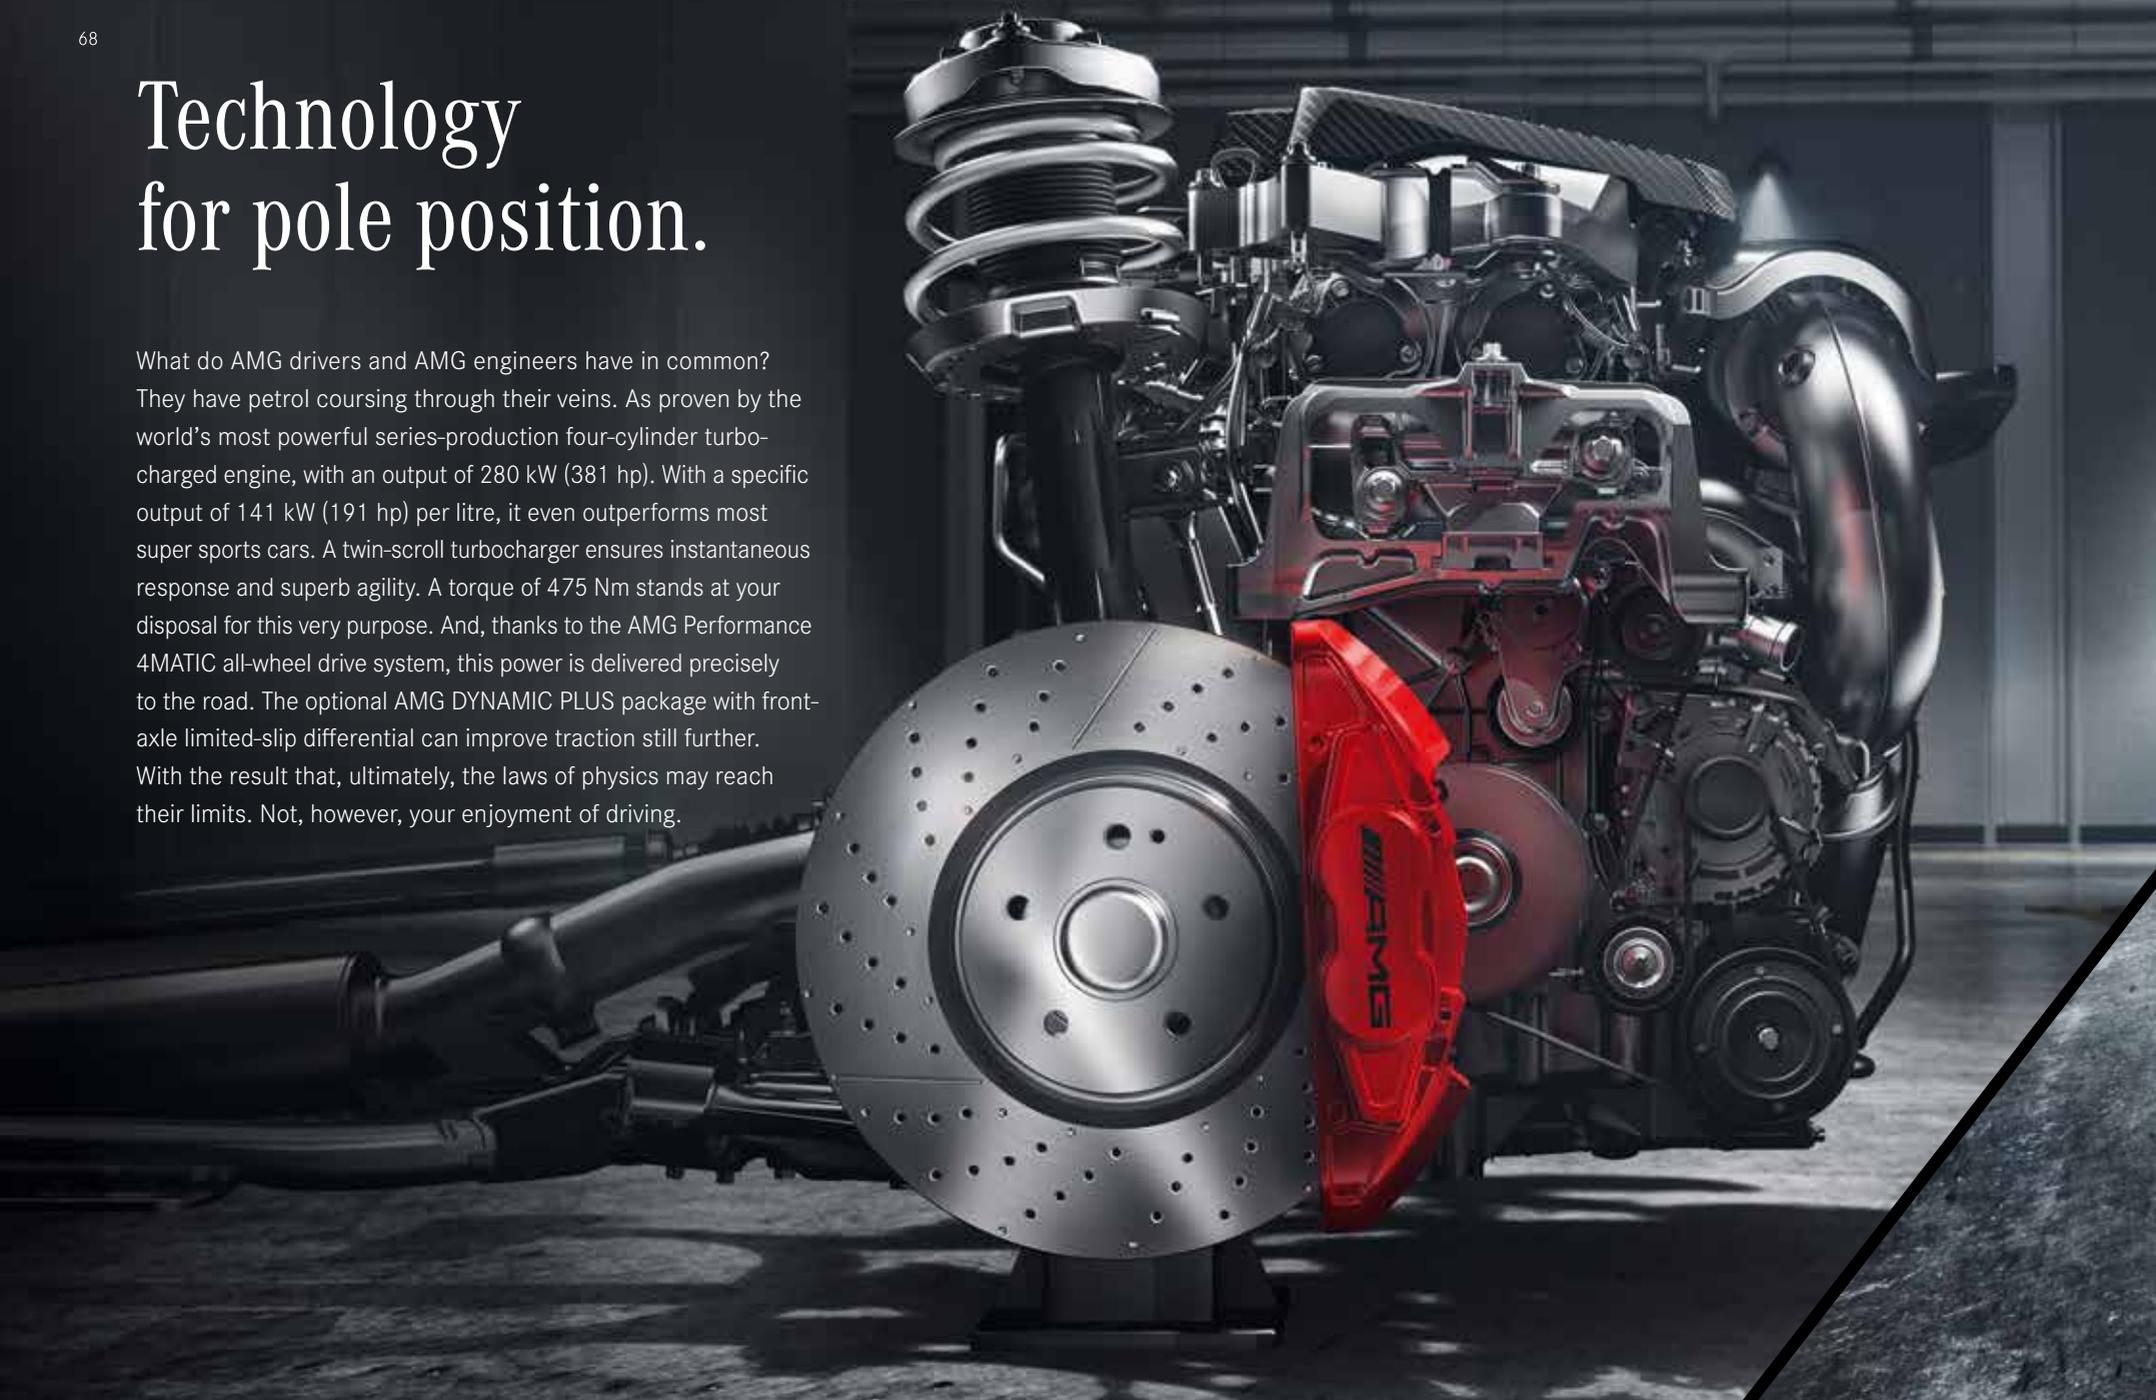

A cockpit worthy of being called such.

To sit in the AMG Performance seats with their pronounced contours and integrated head restraints is to experience high-quality materials and sporty elegance close-up. The surface and the backrest of the seat both offer even better lateral support and add a very special sporty look to the interior of the Mercedes-AMG GLA 45. The AMG E-SELECT shift lever and the optionally available AMG Performance steering wheel with silver-coloured aluminium shift paddles serve to round off the dynamic appeal of the interior. It all adds up to give the pilot mastery over the vehicle as well as over pretty much any terrain.

Technology for pole position.

What do AMG drivers and AMG engineers have in common? They have petrol coursing through their veins. As proven by the world's most powerful series-production four-cylinder turbo-charged engine, with an output of 280 kW (381 hp). With a specific output of 141 kW (191 hp) per litre, it even outperforms most super sports cars. A twin-scroll turbocharger ensures instantaneous response and superb agility. A torque of 475 Nm stands at your disposal for this very purpose. And, thanks to the AMG Performance 4MATIC all-wheel drive system, this power is delivered precisely to the road. The optional AMG DYNAMIC PLUS package with front-axle limited-slip differential can improve traction still further. With the result that, ultimately, the laws of physics may reach their limits. Not, however, your enjoyment of driving.

Passion grows if you share it: the AMG Private Lounge is our community centred around the world of AMG. This is where AMG customers are able to meet at first-class events and use the online platform to discuss the latest developments from Affalterbach. They can also benefit from special offers and from the direct link to the headquarters of AMG: www.mercedes-amg.com/privatelounge/welcome

The AMG Driving Academy inspires an unparalleled team spirit: experience performance with like-minded individuals and improve your driving skills at racetrack and lifestyle events held at breathtaking locations around the world. Become part of the “World’s Fastest Family”: www.mercedes-amg.com/driving-academy

Want even more? Mercedes-AMG Motorsport offers the ideal platform for professional motorsport in the form of the AMG Customer Racing Program – and with the Mercedes-AMG GT3 a race car developed specifically for this purpose. A fully integrated service package delivers motorsport at the highest level: www.mercedes-amg.com/customerracing

In the AMG Performance Studio we create cars that are perfectly tailored to your wishes and desires. No limits are placed on the creativity of our experts, who demonstrate their unparalleled craftsmanship and attention to detail in areas as varied as special technical components, extravagant paintwork finishes and the most exclusive interior appointments imaginable, to produce one-off masterpieces.

Enter the world of AMG. Experience true driving performance.

We don't just build cars.
We make dreams come true.

Mercedes-Benz is one of the founding partners of the “Laureus Sport for Good Foundation”.

Since the foundation was established in 2000, Mercedes-Benz has been supporting and promoting the aims and values of this worldwide non-profit-making programme: to use social sports projects to improve the lives of children and young people who are disadvantaged or suffering from illness. Laureus has become a fundamental element of Mercedes-Benz’s social responsibility. Every new Mercedes is an ambassador embodying these values. In buying a Mercedes you are supporting the “Laureus Sport for Good Foundation”.

Please note: changes may have been made to the product since this brochure went to press (04.07.2017). The manufacturer reserves the right to make changes to the design, form, colour and specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which are not part of standard specification. Colours may differ slightly from those shown in the brochure, owing to the limitations of the printing process. This brochure is distributed internationally. It provides a general indication of the range of models, features, optional extras, colours and/or services available in various countries. For current and more specific information in relation to the range of models, features, optional extras and/or colours available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Passenger Car Dealer. www.mercedes-benz.com

Take-back of end-of-life vehicles. We will be happy to take back your GLA for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day lies a long way off.

A network of vehicle take-back depots and dismantlers has been established to make it as easy as possible to return your vehicle. You can leave it at any of these points free of charge and, by doing so, make an important contribution to completing the recycling process and conserving resources.

For further information about the recycling and disposal of end-of-life vehicles, and the take-back conditions, please visit the national Mercedes-Benz website for your country.
