Sporting pleasures.

Power and driving comfort combine to produce a refined sporty character. You will be delighted at the power and agility of the V-Class on the road. The drivetrain and suspension reconcile agility and comfort to perfection. For all its space inside, the V-Class demonstrates excellent manoeuvring capability even in tight situations on the road and boasts a small turning circle. With plenty of variable space to accommodate sports equipment, the V-Class is the ideal vehicle to support your sporting aspirations.

7G-TRONIC PLUS with DYNAMIC SELECT.

The 7 finely stepped gears of the 7G-TRONIC PLUS keep engine speeds, noise and consumption at a low level. The driver can use the DYNAMIC SELECT switch to influence the shifting characteristics with the aid of the 4 transmission modes "C", "E", "S" and "M".

Crosswind Assist: lateral thinker.

The standard **Crosswind Assist** system aids the driver in the event of unexpected, gusting crosswinds and thus enhances driving safety. This is particularly important on bridges or when passing trucks and coaches and in strong gusts of wind; in these situations the function provides additional handling safety and takes the strain off the driver.

If the ESP® detects gusting crosswinds via its sensors, it initiates specific braking of the wheels on the side facing the wind. This significantly reduces the vehicle's lateral drift. An indicator lamp in the instrument cluster informs the driver of the intervention of Crosswind Assist.

ATTENTION ASSIST: amazing concentration.

The standard-fit **ATTENTION ASSIST** system is able to enhance driving safety – particularly on long journeys and when driving at night – and can help prevent microsleep. The system gives visual and acoustic warnings if it detects typical signs of drowsiness or inattention, and urges the driver to take a break. To analyse the driving style, steering movements are assessed and used to create an individual driver profile.

Parking package: copilot.

With the help of Active **Parking Assist** and its 360° camera, gives extensive assistance to the driver when looking for a parking space, negotiating in or out of a space and manoeuvring. Active Parking Assist searches for suitable parking spaces and steers the vehicle automatically into parallel and end-on parking spaces. The 360° camera makes the area immediately behind the vehicle visible – including from a bird's-eye view and below the window line. As a result it helps with being able to see obstacles when parking and manoeuvring.

Comfort zone.

The luxurious electronic single seats are equipped with armrests on both sides, luxurious headrests, and leg rests, offering unparalleled comfort for passengers. What's more, the active seat ventilation function, climatized seats and leg rests, and massage function further enhance the level of comfort and ride experience.

The centre console with integrated refrigerated compartment underscores the luxurious passenger-car feel with 2 temperature-controlled double cup holders, a multimedia box, an armrest and various stowage facilities.

Light entertainment.

The ambient lighting welcomes the driver and passengers with a pleasant, indirect light. It is activated on opening the doors or switching on the exterior lights and creates a homely atmosphere on getting into the vehicle. The three colour shades of neutral (white), solar (amber) and polar (ice blue) enable individual selection of the lighting atmosphere.

A light and airy setting.

The high-quality panoramic sliding sunroof with its large glass areas allows a great deal of light into the interior, giving it a bright, welcoming feel-good atmosphere. The front part of the sliding roof can be opened electrically, offering an additional means of ventilation. A two-section electric roller blind provides convenient sun protection. The panoramic sliding sunroof measures 1900 mm x 1120 mm and has a glazed area of more than 2 m.

The panoramic sliding sunroof.

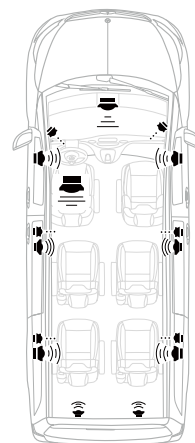

The panoramic sliding sunroof ensures that the car interior is flooded with ample sunlight, while both the front and middle row seats are equipped with adjustable armrests for an added touch of luxury.

Burmester® surround sound system: making music.

The Burmester® surround sound system¹ brings exciting surround sound into the vehicle with its perfectly tuned amplifier and speaker system. Together, the 15 speakers (six more than with standard Audio 20 USB) and bass reflex loudspeaker provide a 640-watt sound experience. The multi-channel surround sound technology provides impressive sound in every seat. The classy Burmester® logo hints at the high-quality of the Burmester® surround sound system. Making conversation easier is a front-to-rear voice amplification system², which uses a microphone integrated into the overhead control panel to feed the voices of the driver and front passenger through to the loudspeakers in the rear.

-  **Centre fill speaker**
-  **Tweeters**
-  **Mid-/Subwoofers**
-  **Midrange speakers**
-  **Bass speaker**
-  **Surround speakers**

15 loudspeakers and one bass reflex box are perfectly matched to the vehicle and ensure a first-class, feel-good audio experience.

¹ Standard for the V-Class EXCLUSIVE AMG equipment line.

² Only available in conjunction with the Burmester® surround sound system and COMAND Online.

Separately opening rear window.

The separately opening rear window in the tailgate enables quick, convenient loading.

Parcel Shelf.¹

The load compartment organiser with two shopping crates enables simple load storage. The load capacity of the load compartment organiser is 50 kg (dynamic). For removal the feet must be detached and the load compartment organiser lifted out of the vehicle (weight approx. 18 kg). The load compartment floor is covered in an easy-to-clean dilour carpet.

¹ Standard for the V-Class EXCLUSIVE AMG equipment line.

The V-Class EXCLUSIVE AMG equipment line.

Electrically adjustable Captain Seats in 1 st row passenger compartment (left & right) with climatic and massage functions	EASY-PACK tailgate	AMG rear apron with load sill guard in chrome
Centre console with integrated refrigerated compartment	Separately opening rear window	AMG side sill panels
Panoramic sliding roof (exclusive for Long version)	Parcel Shelf	AMG spoiler lip
Ambient lighting	Anodised roof rails	(19-inch) AMG 7-twin-spoke light-alloy wheels
LED Intelligent Light System	“EXCLUSIVE” badge on the front wings and tailgate	360-degree camera
	AMG front apron	The Burmester® surround sound system

LED Intelligent Light System.

The LED Intelligent Light System includes adaptive headlamps that automatically adapt to the driving situation. The scope of equipment includes Highbeam Assist which helps to avoid dazzling oncoming vehicles, and the active light function which swivels the headlamps in the direction of the bend and thus significantly improves illumination of the road.

Multifunction steering wheel with a trip.

The standard-fit 3-spoke multifunction steering wheel with a trip computer impresses with its pleasant touch feel and good ergonomics.

Both side power sliding doors.

The two electric sliding doors on either side of the vehicle may be opened or closed using a smart key or by pressing a black button located behind the B-pillar. The doors also feature an additional safety function that detects obstructions and prevents injuries to passengers.

DIRECT SELECT Selector Lever and Shift Paddles.

With the DIRECT SELECT selector lever and shift paddles, shifting between gears is made much easier, faster, and more convenient.

EASY-PACK tailgate.

The EASY-PACK tailgate opens and closes automatically at the simple press of a button.

Electrically adjustable driver and Co-driver seats.

Electric seat adjustment enables simple and comfortable adjustment of the comfort driver's seat and comfort head restraint to suit individual and the exterior mirror setting up to 3 drivers.

THERMOTRONIC automatic climate control.

Automatically regulates temperature, air volume and distribution separately for driver and passenger. In addition to the temperature in the interior, it also takes into account influencing variables such as sunlight, humidity and the quality of the fresh air being drawn in.

Audio 20 CD.

The Audio 20 CD provides a high level of operating convenience with an innovative touchpad and a CD drive.

Innovative Touchpad.

The innovative touchpad allows all telematics functions to be operated by means of gestures while enhancing accessibility to the car's management system and COMAND infotainment system. The touchpad is also equipped with handwriting recognition, tactile feedback, and multi-finger gestures for added convenience and safety.

The COMAND Online multimedia system.

The COMAND Online multimedia system covers virtually every need when it comes to infotainment, navigation and communication in the vehicle. (Optionally available)
