

The GLC

Sport Utility Vehicle

Mercedes-Benz

A strong character with completely new facets.

The GLC is more intelligent, dynamic and self-assured than ever. With a fascinatingly cutting-edge operating system that adapts more accurately to your needs and preferences every day. With an even more expressive SUV design. And with comfort and safety systems that attend better than ever to you and your well-being.

The image shows the front interior of a Mercedes-Benz GLC. The steering wheel is black with a silver Mercedes-Benz logo in the center and silver accents on the spokes. The dashboard features a large, wide infotainment screen displaying the MBUX interface with a search bar, 'Apps', 'Confort', and 'Media' options. Below the screen are three circular air vents and a row of touch-sensitive buttons. The center console has a gear selector and handbrake. The interior is finished with black leather and red accents on the door panels and seat stitching. The background shows a view of a mountain range at dusk or dawn.

Climb aboard.
The GLC has
a lot to tell you.

A whole new way of operating a car. Simple. Intuitive. By word, touch and gesture. This is MBUX – the new Mercedes-Benz User Experience. The highlights: new digital displays and touch control elements, a natural speech recognition system plus the ability to adapt itself better to you each day.

Feast your eyes on something special.

Nothing appeals to the eye more than an aura of strength and athleticism. And the GLC with the AMG Line has a particularly sporty charisma. With its broader shoulders, integrated tailpipe trims and new wheel designs, it conveys an even greater sense of power and dominance. And the flattened tail lights feature LEDs as standard for the first time.

Top up your energy levels.

Everything here in the interior has just one aim: to make the time you spend here as enjoyable as possible. With ENERGIZING packages to enhance your sense of wellbeing as and when you need them. With new optional sports seats for tangibly more lateral support and comfort. And with a Burmester® surround sound system that can turn your music into a superb audio experience.

Only the GLC handles like this.

Adaptive suspension systems, all-wheel drive, and electrified engines. All of this is possible for the GLC. Among the absolute highlights available are the optional AIR BODY CONTROL air suspension system for exceptional driving stability, the practical 4MATIC all-wheel-drive system and the new electrified petrol engines with EQ Boost.

Energising comfort and exemplary safety.

During rush hour, on long drives at night or on unfamiliar routes – your GLC noticeably takes the strain out of driving, particularly in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz a safer and unique experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, first and foremost, you reach your destination safely, but are also relaxed when you get there.

EQUIPMENT HIGHLIGHTS – DRIVING ASSISTANCE SYSTEMS

Driving Assistance package. Join the road to autonomous driving: cutting-edge systems support you according to the given situation with speed adjustment, steering, lane changes and even when there is a danger of collision. The risk of an accident is reduced – passengers and road users are protected effectively. So you reach your destination relaxed and safe.

The innovative **PRE-SAFE® Sound** generates a noise from the loudspeakers that can trigger a protective reflex: this protects the inner ear by damping the accident noise.

Parking package with 360° camera. Optimum parking service on board. Active Parking Assist with 360° camera makes it easier for you to find somewhere to park and to manoeuvre into and out of parking spaces. The choice here is yours: park with assurance yourself thanks to excellent all-round visibility – or make things easier still by getting the car to park for you.

Mercedes-Benz User Experience.

You can now control and adjust almost everything in the GLC using just one finger. It's all very straightforward, via either the large touchscreen, the new touchpad or the Touch Control buttons on the new steering wheel. A quick tap is all it takes to customise the style of the display, the ambient lighting or the infotainment system to your requirements.

EQUIPMENT HIGHLIGHTS – CONTROL AND DISPLAY CONVENIENCE

To enable you to find your way in complex traffic situations, **MBUX Augmented Reality Navigation** merges the virtual world with the real world. The technology incorporates graphical navigation instructions and traffic information into live images. So you reach your destination quickly, safely and stress-free.

MBUX voice control. The MBUX (Mercedes-Benz User Experience) infotainment system with intuitive voice control is available as an option for the GLC. It understands what you say and obeys your commands using natural speech recognition. Two words are all it takes: “Hey Mercedes”, and the GLC is all ears.

Intuitive touch control concept.

The sophisticated MBUX touch control concept lets you determine exactly what it shows you and how you control it. As intuitively as on a smartphone. Either by hand gestures on the new touchpad, by using the Touch Control buttons on the new steering wheel, or via the touchscreen. The choice is yours.

Fully digital instrument display.

The fully digital instrument display with the “Classic”, “Progressive” and “Sporty” display styles enables you to decide which information is important to you and how you wish to see it displayed. The 31.2 cm (12.3-inch) display delivers a pin-sharp image which is easy to read in all light conditions.

Burmester® surround sound system.

The optionally available Burmester® surround sound system turns your GLC into an exceptional acoustic experience. The system is based on a wealth of perfectly orchestrated components that have been fine-tuned to the vehicle interior: 13 high-performance speakers, Frontbass technology, and a 9-channel DSP amplifier with a total output of 590 watts. For outstanding sonic quality with high sound-level reserves.

Sports seats.

The AMG Line sports seats offer you appreciably more lateral support and comfort, particularly when driving at high speed. Visual highlights include the fine two-tone upholstery in cranberry red and black ARTICO man-made leather as well as the unique and exciting AMG design.

Standard equipment and appointments.

A stylish exterior all round already awaits you with the standard specification. This includes exclusive design features in chrome and attractive light-alloy wheels. The visible, chrome-plated tailpipe trim elements underline the dynamic look of the vehicle.

The EXCLUSIVE Interior design and equipment line.

The EXCLUSIVE Interior allows you to show what matters to you: the utmost in elegance and top-class quality down to the most minute detail. The luxurious highlights and fine ambience of your interior, including exclusively styled seats and an elegantly upholstered instrument panel, will bring you fresh pleasure every day.

The AMG Line.

The expressive bodystyling of the AMG Line lends the exterior a sporty, exclusive touch. As such you can make a clear statement for powerful design. The technical features additionally provide you with more tangible driving pleasure, as the sports suspension – tuned for agility and coupled here with the Sports Direct-Steer system – ensures emphatically dynamic handling.

The Night package.

The Night package adds attractive touches: many of the exterior features are finished in black. They underscore the sporty character and special individuality of your vehicle. And as such you can demonstrate your sense of expressive design and exclusive sportiness.

Adaptive suspension systems.

The GLC not only adapts to the road surface, it also responds to your needs: the AGILITY CONTROL suspension, configured for outstanding ride comfort, comes as standard. Also available: 4MATIC all-wheel drive and the exceptionally sporty DYNAMIC BODY CONTROL suspension with steel springs and adjustable damping. One of the absolute highlights: the AIR BODY CONTROL air suspension for exceptional driving stability coupled with outstanding comfort and agility.

4MATIC all-wheel drive.

When moving off or accelerating, during dynamic cornering or in light off-road terrain: 4MATIC, the enhanced permanent all-wheel drive system from Mercedes-Benz, ensures superb off-road performance and optimum traction as standard with many of the engine variants in the GLC. The all-wheel drive system is constantly active and does not require any time to react and intervene. In this way it ensures unique directional and driving stability, especially on slippery surfaces due to rain, ice or snow.

Not an SUV. An AMG.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. It is generated at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for motor racing – and for the road.

Welcome to the world of AMG.
