

# The E-Class

Coupé and Cabriolet

Mercedes-Benz

# A road is just as beautiful as the world that surrounds it.

In Saloon and Estate guise, the E-Class has raised the bar with its intelligence, making the road a safer and more comfortable place to be. But that was just the beginning. The Coupé and the Cabriolet transform grey tarmac into breathtakingly sensual experiences. Lower the windows, open the fabric acoustic soft top – and let your senses come alive.

EXPERIENCE THE E-CLASS COUPÉ AND CABRIOLET IN GLORIOUS HD.

With the Mercedes-Benz brochure app for the iPad® and with the Digital Owner's Manual from "Mercedes-Benz Guides" for the iPhone®. Both apps feature a wealth of films and additional content and are available free of charge from the iTunes Store®.

## The E-Class Cabriolet. A revelation.

This Mercedes needs just 20 seconds to seduce you. That's how quickly the soft top opens. That's how quickly you and your senses succumb to the inevitable. In this moment, you only want to do one thing: share it. That's why the E-Class Cabriolet offers four fully-fledged seats with plenty of free space and unrivalled comfort.

## The fine art of doing without.

The design of the E-Class Cabriolet is best-described by what is missing: firstly, there's no fixed roof – which lends the car a timelessly elegant look. And the silhouette an even lighter and longer appearance. What a view! The eyes are drawn inexorably along puristic surfaces with forms reminiscent of a sculpture. With breathtakingly sensual and clean lines.

## You need a good reason to close the roof.

And there's no better reason than the roof itself. The fabric acoustic soft top is a real head-turner which deserves to be on show and blends in seamlessly with the sporty, elegant silhouette. The design reaches an impressive conclusion in the shape of the dynamically flush LED tail lamps with a crystal look, which emphasise the mesmerising character of this unique cabriolet.

The best thing about this moment  
is that you can share it.

The E-Class Cabriolet is a generous invitation for up to four adults: dive in, let go. Exclusive design details such as the unique air vents that look like turbines and the optional open-pore wood trim – in light brown elm or black ash, for example – embrace the occupants. This wrap-around effect creates a unique feeling of comfort.

## A roof that exercises quiet restraint.

The fully automatic fabric acoustic soft top controls itself elegantly, blending in seamlessly with the coupé silhouette. It makes the E-Class Cabriolet not only one of the most sensual, but also one of the quietest cars in its class. This quiet operation marks the start of true all-year-round enjoyment, made complete by options such as AIRCAP and AIRSCARE, which defy wind and weather when the roof is down.

Not a cloud in sight.  
But it feels like you're floating on one.

The optional AIR BODY CONTROL multi-chamber air suspension delivers unparalleled refinement. There is no more undisturbed, quiet and effortlessly superior way to enjoy your newly won independence. Or let yourself get carried away: use DYNAMIC SELECT to choose "Sport" or even "Sport+" mode, and experience cornering dynamics on a par with a sports car. Only the E-Class Cabriolet can offer you this degree of artistic licence.

360° experience as standard.

## Wait a moment!

Take it all in: the rubellite red metallic paintwork, the sparkling diamond radiator grille – the E-Class Cabriolet shines like a precious jewel. Just look at how sublimely the exclusive paintwork iridesces in the sunlight. Turning from its reddish tint to almost black. A spectacle you can experience again and again each time the sun comes out.

# Intelligence that gives free rein to your emotions.

The E-Class has been developed to give you the option of semi-autonomous driving – in other words, it can assist the driver with accelerating, braking and steering. A car that can perceive possible danger and initiate important safety measures. A car that communicates with its peers to warn of traffic jams, for example. These are just a few of the ingredients that make up Mercedes-Benz Intelligent Drive – and they are all there for one reason: so that you, the occupants, can experience every trip and every ray of sunlight even more intensely and with an even greater feeling of relaxation.

## The E-Class Coupé. The next icon.

No sooner have we closed the E-Class Cabriolet than the Coupé draws us under its spell. A textbook Gran Turismo. Its uniquely graceful roofline merges flowingly into the athletic rear end. This creates modern, breathtaking aesthetics.

## Magnetically attracts your gaze.

Perfect proportions and sensual purity crown the E-Class Coupé as a design classic. A unique technology package as a masterpiece of intelligence. The refined diamond radiator grille and the optional MULTIBEAM LED headlamps shine way out in front: this coupé displays a combination of dynamism, comfort and safety on the road in equal measure.

## Contrasts – they make people interesting and coupés irresistible.

Black and white stands for a coming together of extremes. In the case of the E-Class Coupé, these are extremely distinctive design, sportiness and exclusivity. Many of the components that make up the optional Night package are finished in black. When contrasted with glistening paintwork in designo diamond white bright, they make for a thrilling spectacle.

A close-up, low-angle shot of the side of a white Mercedes-Benz E-Class Coupé. The car's windows are rolled down, revealing the interior. The front seats are black leather with white horizontal stitching. The rear seat is also visible, featuring a similar design. The car is parked on a city street at night, with blurred lights and buildings in the background.

## Framelessly elegant.

Once the windows are lowered and the optional panoramic sliding sunroof is open, you can experience the E-Class Coupé in all its intensity. It's an almost cabriolet-like atmosphere. Moreover, the understated interior impresses with its precise measure of refined sportiness.

## Drive code: sporty and elegant.

Be it comfortable Gran Turismo or agile athlete – your fingertips dictate how the E-Class Coupé performs. As an alternative to the AIR BODY CONTROL air suspension system, DYNAMIC BODY CONTROL adjustable steel suspension is available as an option. Activate “Sport+” mode and let yourself be carried away by sporty, engaging handling and crisp gear changes.

What's under the bonnet  
also gets under your skin.

From a sophisticated Euro 6 diesel engine to the sporty V6 biturbo engine – the E-Class Coupé offers the ideal drive system to suit any persuasion. When 4MATIC all-wheel drive is on board as well, the engine power is planted onto the road with even greater aplomb – where it is converted into adrenaline instantaneously.

## Invitation to a fascinating world.

In keeping with the tradition of exclusive Gran Turismos, the E-Class Coupé offers every comfort and plenty of space for touring in four fully-fledged seats. Immerse yourself in the modern luxury of Mercedes-Benz. The interior exudes quality – just one look at the air vents with their exclusive turbine look or the optional Widescreen Cockpit comprising two 31.2 cm (12.3-inch) displays confirms this. It opens up a fascinating digital world for you.

A black car is shown from the side, driving on a paved road that curves along a coastline. The car is in motion, with a blurred background of the sea and sky. The car's sleek, aerodynamic lines are emphasized, particularly the roofline and rear window area.

## Chapeau, coupé!

The expressive coupé lines and the powerful tail end are not just visually inspiring, they also embody outstanding aerodynamics. They improve efficiency and prevent disturbing wind noise. They also help to ensure reliable roadholding when driving at high speed.

## Mercedes-Benz Intelligent Drive – pointing the way to accident-free and autonomous driving.

Mercedes-Benz is the first automotive manufacturer worldwide to have developed an integral safety concept, with the aim of safe driving, responding in an appropriate manner to hazards, avoiding accidents and mitigating the consequences of accidents. For the occupants of a Mercedes and for all other road users, too.

Mercedes-Benz Intelligent Drive forms part of this integral safety concept. It makes your Mercedes one of the most intelligent automobiles in the world – an “intelligent partner”. The Mercedes-Benz Intelligent Drive assistance systems are able to recognise hazards, provide timely warnings and even intervene autonomously when necessary – by performing braking manoeuvres, for example. In this way, accidents can be prevented or the severity of accidents can be significantly reduced. In order to protect passengers as necessary in case of dangers, additional protective features such as PRE-SAFE® are activated as anticipatory measures. These features vary according to the model concerned.

Many Mercedes-Benz vehicles already offer the option of a Driving Assistance package. The key functions of this package include partially automated driving on motorways, on country roads and in built-up areas. The Driving Assistance package also lends support when changing lane on multi-lane roads, for example during overtaking. This relieves the driver's workload, as in normal driving they no longer need to brake or accelerate. The driver also receives substantial support with steering – even in bends.

Never before have safety, comfort and measures to reduce the strain on the driver been combined so effectively. This intelligent and pioneering interplay of sensors and safety and assistance systems represents a milestone on the road to autonomous and accident-free driving. And a fascinating new experience into the bargain.

please go to [www.mercedes-benz-intelligent-drive.com](http://www.mercedes-benz-intelligent-drive.com)

Our world in your hands.

[www.mercedes.me](http://www.mercedes.me) – it's all about you. Discover a world of fascinating services, products and innovations that will simplify and enrich your life. Coming straight to you in digital form. And turning our world into your world.

## Life can be so fascinating when you're fully connected.

All our connectivity and mobility services plus a host of other fascinating features – all in one place and exclusively for you. That's Mercedes me. Register free of charge today and make the world of Mercedes-Benz your very own at your convenience – on your PC or laptop or in mobile mode via tablet, smartphone or smartwatch. And because your life is forever changing, our services are also continually evolving. Join us now at: **[www.mercedes.me/welcome](http://www.mercedes.me/welcome)**

Looking for individual inspiration in real life, too? The Mercedes me Stores are a fascinating phenomenon worldwide – in Beijing, Moscow and Hamburg, for example.

**Mercedes me connect** connects you with your vehicle – and your vehicle with the whole world. A comprehensive range of convenient connectivity services relating to all areas of your vehicle supports you, ensuring greater safety, closer contact and an even more fascinating driving experience. It's reassuring to stay connected all the time while you're on the move. Mercedes me connect includes Standard Services, which are able to provide you with automatic support in the event of a breakdown or an accident, as well as Remote Online Services – the option enabling vehicle settings to be carried out by smartphone – and lots more besides.

**Mercedes me inspire** offers special brand experiences and an opportunity to engage in an inspiring dialogue. We aim to share our ideas with you and we would like to know your ideas and wishes. So that we can always offer you the best solutions. A community is available to this end, and you will also find a growing range of offerings and experiences which go beyond the traditional vehicle-related topics – from areas such as events, travel and lifestyle.

**Mercedes me move** offers access to intelligent mobility solutions: car2go is the pioneer and global market leader in free-floating car sharing, the moovel mobility app pools the offerings from various mobility providers to find the ideal route from A to B. With the mytaxi app you can order a taxi, track its approach live and pay for your journey in a convenient manner. Mercedes-Benz Rent offers vehicles to suit all occasions for short- or long-term rental from an authorised Mercedes-Benz dealer near you. Blacklane enables you to book a chauffeur-driven limousine, FlixBus offers inexpensive, comfortable and environment-friendly trips on long-distance coaches.

**Mercedes me assist** makes easy work of organising maintenance for your vehicle, providing a convenient online means of locating a Mercedes-Benz dealer in your neighbourhood and arranging a service appointment. The digital service report keeps you up to date on performed service work. The report can be made available to you online just one day after a service. In addition to the current service report, you can also view your vehicle's complete service history and service intervals, and you can print this information out if you so wish.

**Mercedes me finance** offers you various routes to your vehicle of choice. Mercedes-Benz Bank/Mercedes-Benz Financial Services finds the ideal leasing, financing and insurance solution together with you – tailored to your needs. Our leasing products enable you to drive the latest models at all times while enjoying maximum flexibility, as you pay not for acquisition of the vehicle, but only for its use. You also benefit from attractive monthly instalments. Our financing arrangements enable you to pay for your new Mercedes-Benz in a way that suits your personal budget. You can tailor your monthly instalments to your needs by deciding on an appropriate down-payment and term for your contract. Our individual insurance solutions offer reliable protection for your budget and your vehicle on attractive terms. Your existing financial contracts can be managed conveniently online.<sup>1</sup>

<sup>1</sup> Depending on market availability.

## Our service: the perfect fit for your Mercedes.

Beyond the car itself, you also acquire something priceless – an exclusive partnership with Mercedes-Benz. For you, this means safety, independence and motoring free of any worries. In other words: the reassuring feeling of driving a Mercedes.

**The best for your Mercedes.** No-one knows your Mercedes better than our experienced specialists at the Mercedes-Benz workshops. The comprehensive range of services and the high standard of quality ensure that your vehicle is in top condition. We use proven Mercedes-Benz GenuineParts and special tools to this end.

**The best for you.** Motoring free of any worries right from the word go: with the tailor-made Mercedes-Benz Service Contracts. These offer you the benefits of a reliable basis for long-term planning, permanent control over costs, fixed monthly rates and cost transparency. Plus ideal protection from additional workshop costs.

**The best for your mobility.** The Mercedes-Benz Mobilo<sup>1</sup> mobility solution provides for motoring free of any worries throughout Europe – covering breakdowns, accidents, minor mishaps and vandalism. The benefits offered by Mobilo include on-the-spot assistance, a replacement vehicle, towing and overnight hotel accommodation, for example. Mobilo comes free of charge for the first two years after initial registration and can subsequently be renewed each time the vehicle is serviced by an authorised service partner, for a period of up to 30 years in all. Whenever you need assistance, you can reach us free of charge throughout Europe on 00800 1 777 7777<sup>2</sup>.

### ↘ FIND OUT MORE

For the full information on Mercedes-Benz Service Contracts, go to **[www.mercedes-benz.com](http://www.mercedes-benz.com)** – or ask your authorised Mercedes-Benz dealer to draw up an individual offer for you.

<sup>1</sup> Our general terms and conditions apply. The period of validity is extended after each service carried out by an authorised Mercedes-Benz service partner until the due date for the next service – up to a maximum of 30 years after initial registration. <sup>2</sup> Roaming charges may apply when calling from abroad.

## What would motorsport be without Mercedes-Benz?

The first vehicle to ever win an automobile race was powered by a Daimler engine. The first Mercedes was a racing car. The Silver Arrows – a true legend. Mercedes-Benz has a long tradition of involvement with the world of sport. Motorsport shapes the brand and every vehicle bearing the Mercedes star to this day. Discover the brand's unique history first-hand: at the Mercedes-Benz Museum in Stuttgart.

### ↘ FIND OUT MORE

Discover just what has been moving the world for over 130 years and take a journey through time as well as through the history of the automobile at the Mercedes-Benz Museum. More than 1500 exhibits await you on 16,500 m<sup>2</sup> of floorspace, including unique gems such as the oldest surviving Mercedes from 1902 or the legendary gull-wing models. ## What would Mercedes-Benz be without motorsport?

3 June 1934 marked the beginning of the Silver Arrows legend in the International Eifel Race at the Nürburgring. Today this legend is more alive than ever: in 2016 the Silver Arrows works team Mercedes-AMG Petronas Motorsport won the Formula 1 constructors' and drivers' titles for the third year in a row, making history by winning 19 of the 21 Grand Prix races. In a spectacular finale in the desert city of Abu Dhabi, Nico Rosberg secured his first world championship title in his Mercedes-Benz F1 W07 Hybrid. The value of these successes extends way beyond the race track: every mile raced advances development in fields such as lightweight materials and hybrid technology for series production.

Mercedes-AMG F1 W08 EQ Power+, 2017 season.

## Like floating on air: AIR BODY CONTROL.

The optional multi-chamber air suspension system works in unison with continuously-variable damping control to ensure a very high standard of ride comfort and driving dynamics. The damping at each wheel is adapted to the current driving situation and road surface condition. This is done rapidly and precisely using separate valves for the compression and rebound of the dampers. The occupants enjoy a soft basic suspension set-up and the secure feeling of high driving stability as speed increases. A harder spring rate, for example when cornering and braking, effectively reduces rolling movements. Via DYNAMIC SELECT, AIR BODY CONTROL can be made more comfortable or sporty with a choice of three settings: “Comfort”, “Sport” and “Sport+”.

### **DYNAMIC BODY CONTROL**

The optional DYNAMIC BODY CONTROL allows adjustable damping on the steel suspension, too. The damping effect of the shock absorbers is increased in “Sport” and “Sport+” modes. The harder suspension configuration allows a more dynamic driving style with a still high level of comfort, even on long journeys.

## One button, five driving modes: DYNAMIC SELECT.

Decidedly comfortable, extremely sporty or sparing on fuel – with the DYNAMIC SELECT driving modes you can change the driving experience to suit your needs. There are five driving modes in all: “Comfort”, “Sport”, “Sport+”, “Individual” and “Eco”, which the driver can select using a rocker switch on the centre console. In addition to the four preconfigured driving modes, the driver can define his or her own preferred driving characteristics almost without restrictions in “Individual” mode. This makes it possible, for example, to combine light and comfortable steering with a sporty drive setting.

### THE PRE-PROGRAMMED DYNAMIC SELECT DRIVING MODES

---

“Comfort”: well-balanced and fuel-efficient.

---

“Sport”: more agility and dynamism with more direct steering ratio, sportily taut suspension tuning (depending on equipment), spontaneous throttle response and modified shift points.

---

“Sport+”: the suspension (depending on equipment) and the drive system are even more dynamically tuned.

---

“Eco”: keeps fuel consumption as low as possible. adjustments to the accelerator pedal curve and shift points.

---

# Multi-spark ignition and EQ Boost. Says it all.

With its sports-car-like performance, the E 400 4MATIC with V6 biturbo engine is sure to set any motorist’s heart racing, while highly sophisticated petrol injection makes for equally astonishing fuel consumption. The multi-spark ignition is able to generate up to four further sparks within a millisecond after the first spark, meaning that the mixture always ignites as efficiently as possible. Like all the other drive system variants, the E 400 4MATIC is equipped with a 9-speed automatic transmission<sup>1</sup> as standard.

The E 350 with EQ Boost propels petrol-engine technology to a new level of efficiency. Electrification measures reduce the consumption of the 4-cylinder drive system and ensure an output of 220 kW (299 hp). The starter-alternator further boosts the power by up to 10 kW (14 hp) and 150 Nm. It assumes many hybrid functions and recuperates valuable energy during braking. A milestone in contemporary refinement – thanks also to an innovative particulate filter for petrol engines.

## 9G-TRONIC 9-speed automatic transmission.

With nine forward gears, 9G-TRONIC allows efficiency, comfort and dynamism at the highest level. The wider ratio spread allows a reduction in engine speed. Performance

remains excellent, while ride comfort is enhanced and noise levels are reduced. Faster gear changes allow even more spontaneity and agility. At the same time, 9G-TRONIC impresses with its smooth shifting. As 9G-TRONIC is able to skip individual gears, multiple downshifts are possible for fast and powerful sprints.

## 4MATIC permanent all-wheel drive.

Excellent handling characteristics even in difficult road conditions – thanks to the 4MATIC permanent all-wheel drive available for the Coupé and the Cabriolet. When driving in the wet, ice or snow, 4MATIC improves traction, handling dynamics and driving stability. Specific braking force is applied on the wheels with insufficient traction, while the drive torque is increased on the wheels offering good traction. The constant 45 : 55 power distribution between the front and rear axles guarantees effortlessly superior and always predictable handling. 4MATIC is available for the E-Class Cabriolet for the first time – for sheer open-top driving pleasure all year round.

### THE ENGINE RANGE

**Diesel:**

- E 220 d with an output of 143 kW (194 hp) and a peak torque of 400 Nm
- E 220 d 4MATIC with an output of 143 kW (194 hp) and a peak torque of 400 Nm
- E 350 d 4MATIC with an output of 190 kW (258 hp) and a peak torque of 620 Nm

**Petrol:**

- E 200 with an output of 135 kW (184 hp) and a peak torque of 300 Nm
- E 200 4MATIC with an output of 135 kW (184 hp) and a peak torque of 300 Nm
- E 300 with an output of 180 kW (245 hp) and a peak torque of 370 Nm
- E 350 with an output of 220 kW + 10 kW (299 hp + 14 hp) and a peak torque of 400 Nm
- E 400 4MATIC with an output of 245 kW (333 hp) and a peak torque of 480 Nm

<sup>1</sup> E 200 Coupé has a 6-speed manual transmission as standard, 9G-TRONIC available as optional extra.

## Still the best form of control: intuition.

With innovative touchpads, displays and new networking options, the control and display concept raises the bar. Vehicle functions are brought to life even more vividly thanks to high-resolution visualisations and animations. The key features of the control and display system are the **Touch Control buttons** in the control clusters on the multifunction steering wheel, the optional Widescreen Cockpit and the optional **Head-up Display**. The latter shows important information without distracting the driver's attention from the traffic situation. To this end, a virtual image measuring approx. 21 x 7 cm is projected into the driver's line of vision.

### EASY TO USE AND EASY TO SEE

The optionally available **COMAND Online** multimedia system with 31.2 cm (12.3-inch) display leaves virtually nothing to be desired in terms of infotainment, navigation and communication. The hard-disc navigation guides you rapidly to your destination with the help of Live Traffic Information<sup>1</sup>. With the voice-operated control system LINGUATRONIC, the infotainment system and some of the vehicle functions can be operated while driving with as little distraction as possible.

The functions of the multimedia system can be controlled intuitively with the optional **touchpad** using one or two-finger gestures (multitouch). It supplements voice control and the Controller as an input option and is integrated into the latter's handrest.

The information on the instrument cluster can be presented more variably on the instrument display of the optional **Widescreen Cockpit**. Its high-resolution display, 31.2 cm (12.3-inch) screen diagonal and three selectable display styles bring the vehicle functions to life even more vividly.

<sup>1</sup> Three months free of charge; free use for a full three-year term only available after setting up a Mercedes me user account and accepting the general and special Terms of Use.

## Park like a pro.

The optional **Remote Parking Assist**<sup>2</sup> (available for the E-Class Coupé) allows you to move the car into and out of parking spaces and garages. It offers the advantage that the driver can conveniently get out of the vehicle before steering it into tight parking spaces or narrow garages. This can be especially useful for people with restricted mobility or for parents with children. Some additional equipment and a suitable smartphone are required to use the Remote Parking Pilot. Your Mercedes-Benz dealer will be happy to advise you.

The optional **Active Parking Assist with PARKTRONIC** makes it much easier to find and select a parking space and also to enter or leave parallel and end-on parking spaces or garages. The Parking package with 360° camera sends a realistic image to the multimedia system's display.

### FURTHER CONNECTIVITY OPTIONS

The permanently installed SIM card of the **LTE communication module** enables the vehicle to connect to the Internet extremely quickly and reliably. It is used for the Mercedes-Benz emergency call system, Live Traffic Information<sup>1</sup> and all the other Mercedes me connect services.

Simply place down and charge – with the **wireless charging system** no plug connectors are necessary. Mobile devices which support the Qi standard can be charged on the charging surface.

The **digital vehicle key** in the mobile phone can be used to lock, unlock and start the vehicle. The access and drive authorisation system operates based on Near Field Communication (NFC). A conventional vehicle key is no longer required for this. Likewise via NFC, a connection is quickly established between the multimedia system and mobile phone by touching the touchpoint on the “NFC” logo on the centre console.

<sup>2</sup> The driver is responsible for control of the vehicle at all times. The self-parking function (Remote Parking Assist) may not be permitted in all countries.

## Deeply moving high-end sound.

The E-Class Coupé comes with the option of a **Burmester® high-end 3D surround sound system** – for a unique listening experience. 23 specially designed speakers with membranes made of fibreglass fabric, 25 amplifier channels with a system output of up to 1450 watts as well as technologies developed exclusively for the vehicle guarantee unprecedented listening enjoyment. With the 3D surround sound system, passengers are able to experience and enjoy a 3D reproduction of both stereo and multi-channel formats in the vehicle. This effect is made possible with the help of the four speakers integrated into the roof lining. To suit personal tastes, individual sound settings can be made with the five sound presets “Pure”, “Easy Listening”, “Live”, “Surround” and “3D Surround”.

The **Burmester® surround sound system** is available as an optional extra for both the Coupé and the Cabriolet. 13 high-performance speakers as well as electronics and acoustic features tailored specifically to the vehicle ensure the first-class Burmester sound. The surround function and the sound optimisation for the front and rear seats make for an even more intensive listening experience.

### MORE FOR THE SENSES

Art for all the senses: the interior can be fragranced to individual taste with the optional **AIR-BALANCE package**. Depending on personal preference, there is a choice of high-grade fragrances – DAYBREAK MOOD, a tantalising fragrance reminiscent of fresh morning dew, was designed specifically for the E-Class Coupé and Cabriolet. In addition, the air quality can be improved by ionisation and optimised filtering of the incoming and recirculating air.

## Lights off. Ambience on.

Climb in and feel at home – with its indirect light, the optional **ambient lighting** creates an unrivalled sense of well-being in the interior. At night in particular, it highlights the lines as well as the qualities of the interior design and conveys a feeling of comfort thanks to a generous sense of spaciousness. 64 different colours are available to achieve the desired lighting mood. The ambient lighting is based fully on LED technology and can be conveniently controlled, dimmed in five stages or switched off via the multimedia system. It switches on when the doors are opened, welcoming the passengers on board.

The **ENERGIZING comfort control** bundles settings in six perfectly coordinated programmes to boost well-being and high performance. Depending on the equipment, this comprises air conditioning and fragrancing, massage function and ambient lighting as well as playback of appropriate playlists.

### MORE FOR YOUR WELL-BEING

On cold days, the optional **Warmth Comfort package** rapidly warms all the surfaces with which the driver and front passenger come into contact. The armrests on the centre console (in conjunction with 9G-TRONIC) and the front doors can be heated in addition to the seats.

## Quiet, please.

The **fully automatic, fabric acoustic soft top** ensures extraordinarily quiet operation and climate comfort at the highest level. A hands-free system allows you to talk on the phone whilst driving and still hear what is being said, even at speeds of over 200 km/h. The roof can be opened and closed when the car is on the move – up to a speed of 50 km/h. Controls for opening and closing the fabric acoustic soft top are positioned between armrest and touchpad. The fabric acoustic soft top is available as standard in black, dark brown, dark blue or dark red.

### THE HIGHEST DESIGN ASPIRATIONS

---

Breathtaking cabriolet design with puristic forms and exclusive sports-car components.

---

Perfectly proportioned side design with lowerable side windows when the soft top is up or down.

---

Optionally available light-alloy wheels up to 50.8 cm (20 inches).

---

## Now it can be summer all the time.

The optional **Cabriolet Comfort package** extends the open-top driving season throughout the entire year: the AIRSCARF neck-level heating enables open-top motoring to be enjoyed at low temperatures, too. Warm air issuing from outlets in the head restraints is “wrapped” around the necks of the driver and front passenger like an invisible scarf. The AIRCAP automatic draught-stop reduces turbulence in the interior of the vehicle for the front and rear occupants. When the AIRCAP switch is pressed, a wind louvre on the windscreen automatically pops up, and the draught-stop between the rear head restraints extends upwards. In addition, the fully automatic boot separator makes operating the soft top even more convenient.

### THE PINNACLE OF OPEN-TOP DRIVING COMFORT

---

In conjunction with the optional **Warmth Comfort package for the driver, front passenger and rear passengers**, the seat heating brings the rear seats up to a pleasant temperature in next to no time on cold days.

---

The optional leather or nappa leather upholstery is available in a wide range of appointments colours. The standard-fit **sun-reflecting coating** on the leather stops the surface from heating up so much in the sun.

---

## Great space.

The sportiness of the E-Class Coupé extends into the boot. Thanks to the variable through-loading feature, including the option of folding down the centre element on its own, it is possible to stow even long items such as skis. The **rear seat backrests** are 40/20/40 split-folding as standard.

With its large glass surfaces, the optional **panoramic sliding sunroof** creates a light and welcoming ambience. An electric sunblind provides shade in strong sunlight. In the raised position, the glass roof automatically adjusts to three tilt positions to suit the current vehicle speed. It is lowered when driving at high speed to reduce the noise level and air circulation in the interior. Furthermore, the electronic ignition key can be used to activate the “summer opening” and “convenience closing” functions.

### THE FINEST FACETS OF THE E-CLASS COUPÉ

---

Fully fledged 4-seater with exceptionally roomy feel and plenty of space front and rear.

---

Stylishly sporty design elements such as air vents with turbine look and front seats with integral-seat look.

---

Unique side design with high beltline as well as continuous window surface without B-pillars with frameless side windows.

---

Two-piece LED tail lamps with crystal look and Mercedes star in the boot lid.

---

# AVANTGARDE.

## Dynamically elegant.

The standard AVANTGARDE exterior is timelessly modern right down to the last detail. This includes large light-alloy wheels, a diamond radiator grille with black pins, and design elements in chrome and aluminium. The lowered AGILITY CONTROL suspension emphasises the sporty look.

### HIGHLIGHTS OF THE AVANTGARDE LINE AT A GLANCE

---

Dynamic front bumper with chrome trim and air intakes with diamond lattice

---

Diamond radiator grille with black pins, chrome surround, integral Mercedes star and a single louvre in matt iridium silver with chrome inserts

---

45.7 cm (18-inch) 5-twin-spoke light-alloy wheels painted tremolite grey with a high-sheen finish (option, as illustrated)

---

AGILITY CONTROL suspension with lowering function

---

Beltline trim strip in polished aluminium

---

Sporty seats featuring an integral-seat look with horizontal quilting on the seat surfaces

---

Upholstery in ARTICO man-made leather/Norwich fabric in black

---

3-spoke multifunction steering wheel in black nappa leather, with Touch Control buttons and galvanised shift paddles

---

Light crystal-grain aluminium trim and centre console in black piano-lacquer look

---

Beltlines and door centre panels with soft finish in black

---

## The AMG Line. Sportily expressive.

Hallmark AMG characteristics lend this design and equipment line extra sportiness and exclusivity. Thrilling interior highlights include the multifunction sports steering wheel with a flattened bottom section, upholstery in ARTICO man-made leather/DINAMICA microfibre in black, AMG sports pedals, AMG floor mats and ambient lighting. On the outside, AMG light-alloy wheels and AMG bodystyling all round create a powerful, sporty look.

### EXTERIOR HIGHLIGHTS

AMG front apron with chrome trim, sporty and distinctive air intakes with side louvres, AMG side sill panels, and AMG rear apron in diffuser look with chrome trim strip

Diamond radiator grille with pins in chrome and integral Mercedes star

48.3 cm (19-inch) AMG 5-twin-spoke light-alloy wheels painted titanium grey with a high-shine finish (large image)

Broad matt aluminium trim strip around the soft-top compartment lid and beltline trim strip (Cabriolet)

### INTERIOR HIGHLIGHTS

Upholstery in ARTICO man-made leather/DINAMICA microfibre in black

3-spoke multifunction sports steering wheel in black nappa leather with flattened bottom section, Touch Control buttons and galvanised shift paddles

Dashboard upper section in black ARTICO man-made leather with topstitching

AMG sports pedals in brushed stainless steel with black rubber studs

AMG floor mats in black with "AMG" lettering

Ambient lighting with 64 light colours

## Looking good in black: the Night package.

With its black highlights, the optional Night package brings even higher levels of sportiness and expressiveness to the exterior of the Coupé and Cabriolet and provides an additional individualisation option. The Night package is available in combination with AVANTGARDE and AMG Line.

### HIGHLIGHTS AT A GLANCE

---

**Front bumper** with high-gloss black trim in conjunction with AVANTGARDE exterior

---

**AMG front apron** with high-gloss black trim in conjunction with AMG Line

---

**Diamond radiator grille** (AVANTGARDE exterior with black pins/AMG Line with pins in chrome) with integral Mercedes star and a louvre in high-gloss black

---

**45.7 cm (18-inch) 5-twin-spoke light-alloy wheels** painted black with a high-sheen finish, optional 48.3 cm (19-inch) 6-spoke light-alloy wheels painted black with a high-sheen finish with mixed-size tyres (in conjunction with AVANTGARDE exterior)

---

**48.3 cm (19-inch) AMG 5-twin-spoke light-alloy wheels** painted high-gloss black with a high-sheen finish with mixed-size tyres, optional 50.8 cm (20-inch) AMG multi-spoke light-alloy wheels painted high-gloss black with a high-sheen finish (in conjunction with AMG Line)

---

**Exterior mirror housings** in high-gloss black

---

**Beltline trim strip** and **window weatherstrip** in high-gloss black (Coupé)

---

**Heat-insulating dark-tinted glass** for rear side windows and rear windscreen (Coupé)

---

## The designo interior.

Exclusivity chosen intuitively. The optional designo interior rolls out a very special ambience in the E-Class Coupé and E-Class Cabriolet. Its highlights include the sporty integral-look seats with upholstery in fine designo nappa leather – two-tone in macchiato beige/tizian red or black/titanium grey pearl – with a diamond design, perforations in the seat surfaces and coloured topstitching, distinguished by the “designo” badge. The armrests and the beltlines are likewise upholstered in high-quality leather.

Unique, refined details include the open-pore light brown elm wood or open-pore black ash wood trim, or as options designo flowing lines magnolia wood in brown or, for example, designo flowing lines piano lacquer in black.

### HIGHLIGHTS AT A GLANCE

---

Sporty integral-look seats with seat back and cushion in a diamond design with perforations

---

Upholstery in designo nappa leather in macchiato beige with topstitching

---

Dashboard upper section and beltlines in designo nappa leather in tizian red with topstitching

---

Armrests in the doors and on the centre console in designo nappa leather in macchiato beige with topstitching

---

Roof liner in macchiato beige fabric

---

3-spoke multifunction steering wheel in nappa leather in macchiato beige with topstitching

---

Ambient lighting with 64 light colours

---

## Your measure of all things. The optional extras.

The E-Class epitomises our aspirations for a car that represents the best in even the minutest details. Featuring an exclusive selection of equipment options designed to celebrate the concept of modern luxury. Find your own way to express yourself – in this brochure, the price list or online. You can configure your E-Class to your exact requirements at [www.mercedes-benz.com](http://www.mercedes-benz.com).

### HIGHLIGHTS AT A GLANCE

- 1 The **MULTIBEAM LED** headlamps enable continuous main beam without dazzling other road users. Individually controlled LEDs precisely mask out other vehicles and at the same time illuminate the surroundings in light which is almost as bright as daylight. Another design highlight: blue-illuminated highlights in the headlamps.
- 2 The adaptive windscreen wiper system **MAGIC VISION CONTROL** provides the driver with the best possible visibility even during the wiping process. The washer fluid is sprayed directly in front of the wiper blades and wiped away without delay. The heating system effectively lowers the risk of icing-up.
- 3 **KEYLESS-GO** access and drive authorisation system including door handles with chrome inserts as well as convenience opening and closing.
- 4 Reverse parking and manoeuvring is considerably easier and safer using the **reversing camera**. It is activated automatically when reverse gear is engaged and shows the area behind the vehicle together with dynamic guidance lines on the display of the multimedia system.

## Genuine accessories.

The unique sensation of driving a Mercedes-Benz can be enhanced still further through your choice of genuine accessories. Each and every accessory product has been specially developed for the E-Class. Explore the full range at [www.mercedes-benz-accessories.com](http://www.mercedes-benz-accessories.com)

### ACCESSORY HIGHLIGHTS

- 1 Making your **star** shine brightly. The star centred in the radiator grille of your Mercedes lights up courtesy of fibre-optic and LED technology when the vehicle is unlocked by remote control, and when a door or the boot lid is opened. Only functions when engine is switched off, not available in conjunction with DISTRONIC.
- 2 The **black exterior mirror housings** help create a unique, sporty and dynamic look – two-piece set.
- 3 The **rear spoiler** is an add-on part fixed to the boot lid which accentuates the rear spoiler lip without being ostentatious. A high-quality base coat makes the paint finish in the desired colour possible. No entry in vehicle documents required.
- 4 **48.3 cm (19-inch) 5-twin-spoke light-alloy wheels** painted vanadium silver with a high-sheen finish, for 245/40 R 19 XL tyres. Also optional for the rear axle with 245/35 R 19 XL tyres.
- 5 **48.3 cm (19-inch) 5-twin spoke light-alloy wheels** painted black with a high-sheen finish, for 245/40 R 19 XL tyres. Also optional for the rear axle with 275/35 R 19 XL tyres.

**Mercedes-Benz is one of the founding partners of the “Laureus Sport for Good Foundation”.**

Since the foundation was established in 2000, Mercedes-Benz has been supporting and promoting the aims and values of this worldwide non-profit-making programme: to use social sports projects to improve the lives of children and young people who are disadvantaged or suffering from illness. Laureus has become a fundamental element of Mercedes-Benz’s social responsibility. Every new Mercedes is an ambassador embodying these values. In buying a Mercedes you are supporting the “Laureus Sport for Good Foundation”.

**Take-back of end-of-life vehicles.** We will be pleased to take back your E-Class Coupé or Cabriolet for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive – but that day lies a long way off.

A network of vehicle take-back depots and dismantlers is available to make returning your vehicle as easy as possible for you. You are welcome to return your vehicle to one of these establishments free of charge. In so doing, you will be making a valuable contribution towards closing the recycling cycle and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.
