

# The GLC SUV

Mercedes-Benz

# The talented all-rounder. More so than ever before.

The new GLC SUV with its diverse talents is your practical companion. The sporty design underscores its dynamic character, while from within it impresses with high-quality materials and a digital cockpit. State-of-the-art plug-in hybrid engines and innovative assistance systems make it the ideal choice, whatever you're planning.

Our driver assistance and safety systems are aids and do not relieve you of your responsibility as the driver. Please take note of the information in the Owner's Manual and the system limits which are described therein.

## Technology meets luxury.

The digital cockpit with the central display inclined towards the driver, the new steering wheel and high-quality trim elements represent modern luxury. Exclusive materials ensure a unique level of comfort that you can feel – on every journey.

## One of its many talents: Flexibility.

The many features of the new GLC SUV make day-to-day life easier. The boot has grown to 620 litres and the revised space concept improves usability quite perceptibly. Practical: the EASY-PACK tailgate comes as standard for the first time. The standard Boot Comfort Package even enhances practicability yet further.

## The dynamic SUV.

Clear lines and dynamic proportions characterise the design of the new GLC SUV. The pioneering DIGITAL LIGHT with projections (optionally available) can enrich your driving experience and make it safer. As can the sporty front including pronounced powerdomes and the star grille in the AMG Line, which exude elegant sportiness.

The image shows the front interior of a Mercedes-Benz GLC SUV. The driver's seat is on the left, featuring a dark blue leather-like material with a prominent diamond-quilted pattern. The passenger seat is on the right, also in a dark blue material with a different, more subtle pattern. The dashboard is a wide, dark panel with three circular air vents on the right side, each with a red illuminated ring. The center console has a large, horizontal touchscreen display. The steering wheel is partially visible, and the overall lighting is soft and ambient, with a red glow from the air vents and a thin red light strip along the bottom of the center console. The background shows a blurred view of a road and hills under a hazy sky.

## Your comfort is what counts.

With the optional ENERGIZING Package Plus you stay fit and relaxed in the new GLC SUV. Thanks to the various massage functions you can enhance your wellbeing in a personalised way. In addition the ambient lighting concept adapts to your mood – with up to 64 different colours.

## Makes hearts beat faster.

The two-part rear lamp with its three-dimensional inner workings is one of the design highlights of the new GLC SUV and serves to round off the powerful tail end in truly dynamic style. The new running boards, which remind you of the car's dynamic character every time you climb aboard, provide the perfect complement.

## Takes it personally: MBUX.

The new GLC SUV has a host of features that adapt to you, such as the MBUX Voice Assistant. Thanks to the latest generation of MBUX, the driving experience is digitally connected as never before. MBUX recognises your favourite radio stations, playlists or navigation routes via individual user profiles. Find out more.

## Exclusively equipped.

The new GLC SUV leaves nothing to be desired. Intelligent assistance systems such as the Parking Package with the 360° camera and Traffic Sign Assist can increase your ride comfort by taking some of the strain off you. The transparent bonnet, giving you a virtual overview in off-road terrain, is positively groundbreaking.

Our driver assistance and safety systems are aids and do not relieve you of your responsibility as the driver. Please take note of the information in the Owner's Manual and the system limits which are described therein.

## DIGITAL LIGHT with projection.

With DIGITAL LIGHT you experience brilliant lighting conditions. This HD system works like a projector and responds with constantly adapted light to changing traffic, road or weather conditions, while also offering some fascinating projection functions.

## Load compartment capacity of 1640 litres.

The new GLC SUV comes with the EASY-PACK tailgate as standard. It is spacious, functional and designed to a high standard. The GLC is made even more comfortable by the Boot Comfort Package that is included as a standard feature.

## Multicontour seats with massage function.

No matter how long your journey is: the multicontour seats with massage function help you to arrive relaxed.

## Off-Road Engineering Package.

With 20 mm additional ground clearance and the underguard at the side and front, your driving pleasure continues even when you leave surfaced roads. The underguard can prevent vehicle components on the underbody being damaged on your off-road tours.

### Dynamic and efficient: new 4-cylinder engines.

The newly developed 4-cylinder diesel and petrol engines were developed in order to reduce consumption and emissions, without relinquishing ride comfort or performance. They impress with their effortlessly smooth and quiet running.

### Hybrid technologies.

Intelligent hybrid technologies with economical combustion engines and efficient electric drive units ensure lower emissions. As a result, you can now already drive through the city centre without local emissions and have no need to compromise in terms of comfort on long journeys.

### The very latest vehicle dynamics: Plug-in hybrid engines.

The new Mercedes-Benz GLC SUV with plug-in hybrid technology inspires with high performance, short charging times and an electric range suitable for everyday use. Efficiency meets vehicle dynamics. Discover the many advantages of these state-of-the-art plug-in hybrid engines.

### Rear axle steering.

At low and medium speeds, the rear axle steering supports a more agile driving style and provides more manoeuvrability by enabling a smaller turning circle. At high speeds, on the other hand, it offers stability and provides more driving comfort. (Available with Engineering Package)

## AVANTGARDE as standard.

The standard AVANTGARDE exterior brings the dynamism and class of your GLC to the fore. Skilfully combined design elements create a desirable vehicle from every perspective, underscored by high-quality LED High Performance headlamps. The AVANTGARDE interior, also part of the standard specification, impresses with stylish sportiness and first-class quality. The fine accents in the interior with its large central display and ambient lighting will delight you, day after day.

## AMG Line.

The AMG Line interior lends your vehicle a more visible and tangible sense of sportiness. The numerous highlights include two-tone upholstery in ARTICO man-made leather and MICROCUT microfibre, and AMG sports pedals. The expressive bodystyling of the AMG Line lends the exterior a sporty, exclusive touch. The technical features, including the agile sports suspension with Sports Direct-Steer system (not for plug-in hybrid models), provide you with tangibly more driving fun.

## Navigation with trailer route planner.

When calculating the route, the MBUX navigation system can take into account that the GLC is operating in trailer mode. The route is even calculated according to the type of trailer – bicycle rack, small trailer or large trailer. For example, steep gradients or tight bends on the route are avoided to suit the specific combination.

## ENERGIZING Package Plus.

Comfort for all the senses: this package combines a wealth of premium items of equipment with innovative intelligence. Your Mercedes can invigorate and indulge you in targeted ways – for prolonged alertness at the wheel and an extremely pleasant drive. With seven varied comfort programs and attractive extras such as multicontour seats.
